Isocore

Isocore floors are manufactured using the latest technology to deliver the latest fashion in flooring as well as durability, with ease of maintenance.

Isocore is designed to be of high quality, realistic decors and embossing with the added benefits of unrivalled stability and indentation resistance through its unique Cellular Polymer Core (CPC). The IXPE (Irradiation Cross Linked Polyethylene) foam backing provides shock absorption and cushioning, whilst being lightweight and waterproof.

Isocore can be installed in areas such as kitchens, bathrooms and even laundry rooms. Another benefit to Isocore is that it can also be installed directly over tiles where grout lines are less than 6mm deep and 6mm wide.

Isocore is treated with Ultra-fresh, which inhibits the growth of mould and mildew, ensuring a healthy environment for you and your family.

Features & Benefits

Specification

Dimension: 1510 x 220mm
Thickness: 7.5mm
Pack size: 2.66m²
Wear Layer: 0.5mm
Surface Finish: Urethane with Enhanced Ceramic Bead (ECB) & Ultra-Fresh
Joining system: Drop Lock 100
Planks/pack: 8
Warranty: Lifetime Residential
