

Spark Alfresco 2

Outdoor TV

The Spark Alfresco 2 is designed for everyday outdoor entertainment, combining 1500 NIT brightness (~5x brighter than average indoor TVs) with a 4K, HDR10 LED display for vibrant, glare free viewing. Built tough with an IP55 water-resistant design, it is perfectly designed for partial sun areas. Featuring LG WebOS smart TV, IP control for automation, and integrated cooling and temperature regulation, the Alfresco 2 is the perfect balance of performance, durability, and usability.

Key Features

- 1500 NIT brightness, ensuring crystal clear viewing - ideal for partial sun areas
- IP55 Water Resistant - Designed to withstand rain, dust and all weather conditions
- IP Controlled - seamless integration with home automation systems and commercial AV installations.
- Anti Glare Matte Finish - Reduces reflections so you can enjoy the game without glare.
- HDR10 + 4K LED Display - Brighter, more vibrant colours with true to life detail.
- Powered by LG WebOS - Comes ready with all your favourite streaming apps.
- Integrated Cooling and Temperature Control - Built to thrive in Australia's harshest outdoor conditions.

Specifications
