About ANTHBOT

Smart Bot for the Easy Life

Born from the union of precision engineering and a passion for the outdoors, our mission is to create "Effortless Lawn Care for Joyful Living". ANTHBOT is not just about making lawn care easier; we're about making it better for the plants, the people, and the planet.

We've incorporated cutting-edge technology to transform outdoor maintenance from a time-consuming task into an efficient, enjoyable experience so you can spend more time with the people and things that you love.

We believe that your outdoor space should be a source of joy, not labor. Our smart lawn care solutions are designed with this in mind, blending seamlessly into your life to enhance, not to complicate.

Plug and Play
(No Perimeter Wire)

Next-Level Coverage
(Full-Band RTK + 4 Cameras)

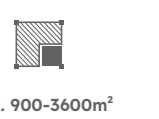

Hands-Off
Auto Mowing

AI Vision for
Obstacle Avoidance

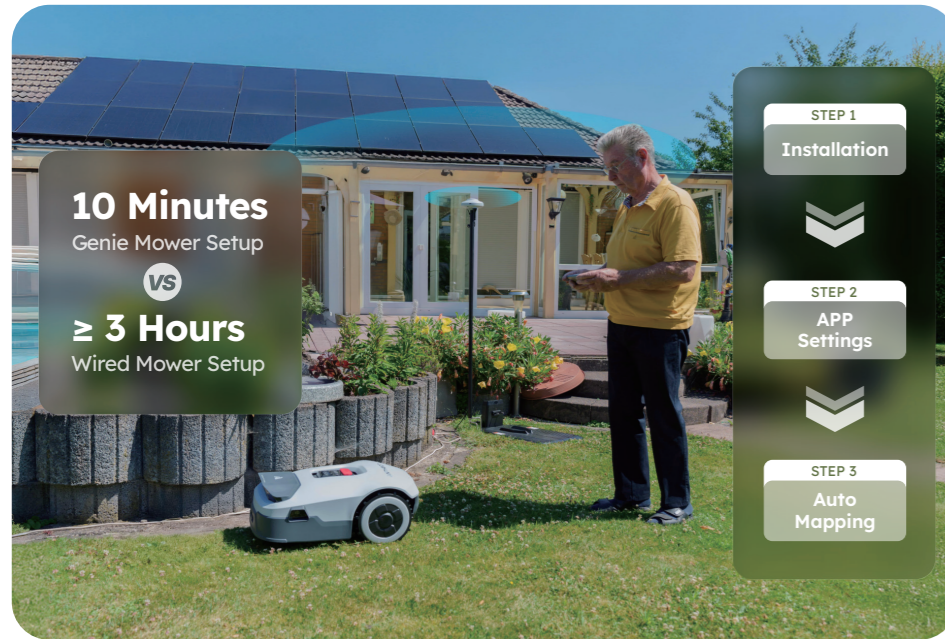

No Worries About
Rain/Noise/Theft

Max. 900-3600m²
(0.22-0.89 Acres)
Mowing Size

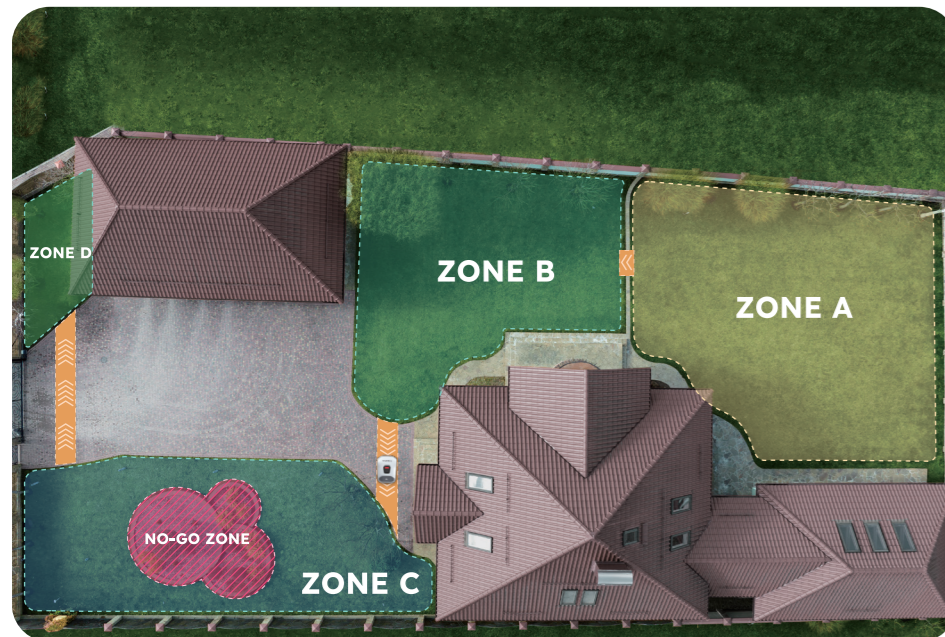

Plug and Play

Thanks to the latest RTK tech, Genie can be easily **set up in 10 minutes**. No more hours of the drudgery of burying wires. Free up your weekend for family or friends.

Multi-Zone Management

With ANTHBOT App, it is easy to add and edit **up to 30 zones**, define no-go areas, and customize settings for different zones, including cutting speed, height, etc.

Peerless RTK GPS Signal

Genie is the industry's **first with Full-Band RTK GPS**, which can receive all 22 bands of satellite signal frequencies. The signals easily penetrate clouds, enabling a stable connection under dense trees.

Navigate No-Signal Area

In case the satellite signals get weak, the **four AI cameras** will always find the path to go, whether it is under a trampoline/table or in hidden corners.

Unstoppable on Rough Terrains

Genie adopts a powerful brushless motor and two all-terrain rear wheels. No sweat to conquer a **max. 45%/24° slope**, a bumpy road, or a gravel path.

AI Obstacle Avoidance

The 300° wide AI vision of Genie can **recognize 1000+ obstacles** without blind spots, including people, animals, toys, tools, and all sorts of garden objects.
