

## **Airwheel Luggage Disclaimer**

- **Battery Type in Airwheel Electric Luggage:**  
Airwheel uses high-quality lithium batteries that are safe, environmentally friendly, and contained in an independent closed unit. The battery is compliant with UN38.3, RoHS, and MSDS standards. It charges fully in just two hours and can last over 800 charge cycles, ensuring longevity and reliability.
- **Carry-on Policy for Airwheel Luggage:**  
Airwheel models may be allowed as carry-on luggage on certain flights, but policies vary by airline. Passengers are responsible for checking airline regulations to ensure compliance.
- **Airline Weight Limit:**  
Airwheel luggage may meet weight limits for full-service airlines, while low-cost airlines might require extra fees for additional weight. Since regulations change often, verify details with your airline before flying. Passengers are responsible for complying with airline regulations.
- **Product Warranty Details:**  
There is a 12-month warranty for luggage and a 6-month warranty for the battery.
- **Damaged Order:**  
If your order arrives damaged, notify Harvey Norman immediately and refrain from using the product.
