CLEANSTAR™
THE STAR IN FLOOR CARE

DRYFT®

The world's first
S-Motion Scrubber Dryer

Introducing DRYFT, a breakthrough in floor cleaning technology. With its patented ultra low profile head shape and groundbreaking 4200rpm Scrubbing Technology, DRYFT delivers 100% floor cleaning coverage in half the time.

Now you can clean 100% of the floor surface.

Low Profile

We designed our own compact, low profile digital motor which allowed us to create the world's lowest profile scrubber dryer for cleaning underneath partitions as low as 5cm/1.9".

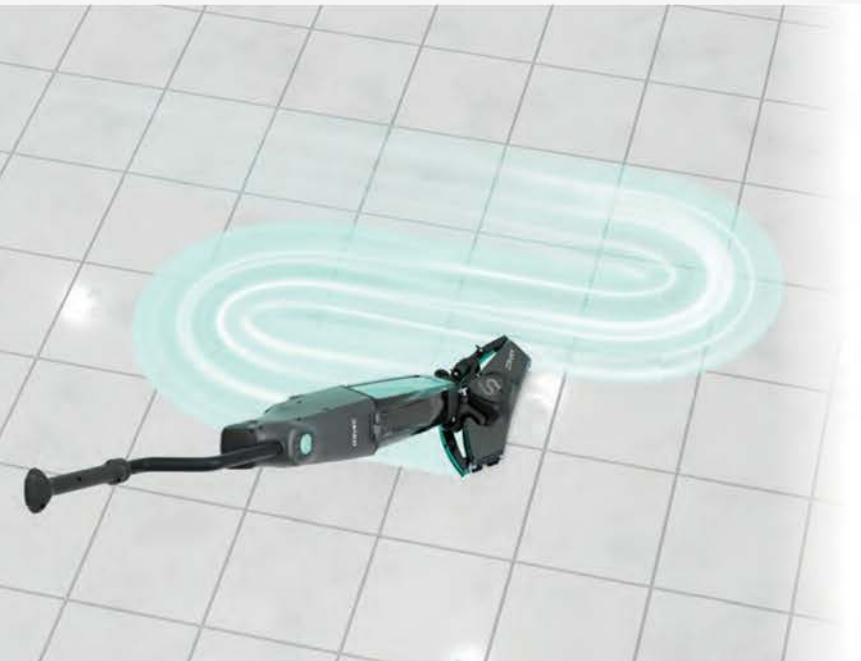

Hard-to-reach Areas

DRYFT's patented head shape is the key to its limitless cleaning ability, efficiently cleaning around toilets in seconds.

Corner Cleaning

Don't cut corners, DRYFT them. DRYFT will scrub and dry deep into corners, thanks to the chamfered edges on the cleaning head.

motion®
the way we clean

DRYFT is the world's first S-Motion Scrubber Dryer. DRYFT cleans in widths of 160cm/63" whilst you walk forward once, in comparison to other scrubbers, that require the user to walk four times up and down to cover this same cleaning width. The result is 75% less walking with DRYFT allowing the user to double their floor cleaning productivity.

DRYFT cleans 100m²/1076ft² in just 3.9 minutes.

Floor Tracking Technology
DRYFT tracks and adjusts automatically to uneven floors, thanks to the SPYDR Chassis, which enables the cleaning pad and squeegees to adjust independently.

Aluminium Chassis
Robust aluminium construction designed for commercial use.

Spin Handle
Keeps your upper hand stationary allowing the machine to rotate effortlessly.

S-Handle
The ergonomically designed S-Handle enables the user to effortlessly guide the machine in the super fast S-Motion.

Simple Controls
Switch between smooth floor mode and rough floor mode at the press of a button.

DRYFT CORE-ion Battery
Clean 24/7 with DRYFT CORE-ion quick change battery technology, 1 hour 15 minute runtime, 1 hour charge time.

Suction Service Pod™
Anybody can service DRYFT with our smart self service pod design. Quickly and easily change all serviceable parts; suction motor, solenoid valve, PCB, squeegees and more.

Magnetic Recovery Tank
Easy to clean and empty.

Quick Fill Magnetic Tank
2.5 litre/0.66 gallon clean water tank delivers 20 minutes cleaning time.

Ultimate Manoeuvrability
Forged aluminium torque transmitting ball joint.

Floor Tracking Technology
DRYFT tracks and adjusts automatically to uneven floors, thanks to the SPYDR Chassis.

Transportation Wheels
Flip the head onto the transport wheels for easy transportation between cleaning areas.

MAGPlate Magnetic Pad Holder
Colour coded magnetic pad holder.

Wall Protection Glide Wheels
Non-marking soft rubber for precision edge cleaning.

Quick Release Squeegee
Tool-free design for easy maintenance.

Aluminium Chassis
Robust aluminium construction designed for commercial use.

Efficient Water Release
High performance cleaning with just water, thanks to 4200rpm scrubbing action.
