100 DOG YEARS

MAX AND ROCKY GATE SYSTEMS

Like the flex configure system, the Max and Rocky gate systems provide a standard or extra tall solution to help secure your pet from fireplaces, staircases and more. The wall mounted system consists of flexible sections that can be configured and positioned freely to suit your needs.

The systems are available as a separate gate, 72cm panels and a wall mount kit, or a preconfigured set which consists of wall mounts, gate and 2 x 72cm panels. The height of the Pet Series is 71cm or 105cm and available in black or white.

Rocky Gate System

Height: 105cm

Colours: Black or White

Available as separate pieces or as a set

Max Gate System

Height: 71cm

Colours: Black or White

Available as separate pieces or as a set

MAX AND ROCKY SYSTEM EXTENSIONS

Customise your Max or Rocky system with the addition of extra panels or gates. Ideal for use around safe guarding fireplaces, stair cases or as a room divider.

The **extension gate** is an extender used to customise the fit or function of the DogSpace Rocky or Max systems. Please note, this extension gate cannot be installed alone, it needs to be used as an addition to the Max or Rocky system. The gate offers an additional 71 cm.

The **extension panel** offers an additional 72 cm in width. The Max system can be extended indefinitely with as many extensions as you like for a truly customised fit. Please note the Rocky system can create a pet gate that extends to a total of 340 cm

Rocky and Max System Extension Gate

Height: 105cm or 71 cm

Width: 72 cm

Colours: Black or White

BONNIE AND LASSIE PRESSURE GATES

This elegant pressure-fit gate requires no drilling or use of wall cups (unless more than 6 bars of extensions have been used) and the safety indicators ensure correct installation.

It is the perfect solution for protecting your precious little ones when over-excited 4-legged friends are dashing about.

Can be fitted with up to 6 extensions distributed evenly. Spans 73.5-79.6 cm, but with extensions reaches up to 119.3 cm.

Gate door opens in both directions and has a trip bar at floor level (ideal to prevent small puppies from getting under the gate, however this gate would not be suitable for use around stairs).

Bonnie Pressure Gate

Height: 105 cm

Colours: Black or White

Additional extension pieces purchased separately

Lassie Pressure Gate

Height: 73 cm

Colours: Black or White

Additional extension pieces purchased separately

BONNIE AND LASSIE GATE EXTENSIONS

If you need to mount the Bonnie or Lassie pet gate in an opening that's wider than 79.6 cm, the 2 bar extension piece will ensure the gate is a perfect fit.

Includes two extension bars that are both 7 cm wide, for a total extension of 14 cm. Add up to 6 extension to the same gate for an opening as wide as 119.3 cm. Extensions should be placed evenly, either side of the gate. If using more than 2 extension bars, the gate must be mounted with screws and wall cups for secure installation. A maximum of 6 extensions bars can be safely added.

Bonnie Pressure Gate
Height: 105 cm
Colours: Black or White

Lassie Pressure Gate
Height: 73 cm
Colours: Black or White

LUCKY AND CHARLIE EXTENDABLE GATES

A fabulous gate for securing a kitchen or laundry area these extendable gates are easily adjusted to the correct width. Once mounted, a quick release system lets you remove the whole gate for easy access in an instant.

The extra height of the Charlie gate (98cm) is ideal for securing areas from larger and stronger dogs, or just keeping your house clean and dry after long walks in the rain or at the beach.

The gate opens in both directions and suits openings 62.5cm and 106.8cm

MARLEY RETRACTABLE GATE

This wall mounted barrier auto-folds away to one side and it is almost invisible when not in use. It is made from plastic (ABS, TPU, PA) and contains no PVC.

Can be mounted both inside or outside the door frame and is highly suitable for very narrow stairways and doors that can be difficult to secure. Suits openings 64.5 - 89cm when mounted on the inside. 10cm less when mounted on the outside.

The Marley retractable gate can be extended with an extra panel, 24 cm wide, bought separately making it a very versatile solution.

Marley Retractable Gate

Height: 72.5 cm

Colours: White only.

Extension piece purchased separately.

Marley Retractable Gate Extension Piece

Height: 72.5 cm

Colours: White only.

Adds 24 cm to the width.

OUR PAWPRINTS ARE GREEN

*DogSpace and Sustainability:
Green Pawprints for a better future.*

DogSpace believes pawprints should be green. By choosing sustainability, we ensure a better future for all.

DogSpace strives to produce products that have minimal or no environmental impact, by working with the UN's Sustainable Development Goals as a guide.

DogSpace strives to produce pet gates as energy-efficiently and sustainable as possible. Everything is measured and monitored, and our products are as recyclable as possible. During production, DogSpace relies exclusively on wind power for electricity.

All pet gates are produced in Denmark to ensure that all materials and processes are as environmentally friendly as possible. That's why DogSpace is proudly approved by great Danes.

PACKAGING AND ONBOX

DogSpace by BabyDan produce gates with an environmental focus, and that includes the packaging. DogSpace boxes are made of 46-100% recycled cardboard, depending on the product.

Made of extra strong cardboard for shipping, the highly identifiable boxes look great instore.

Each gate comes with a unique Onbox code – a free app-based video system that shows customers how easy it is to install a DogSpace gate.
