Position the Adaptors according to your TV's hole pattern

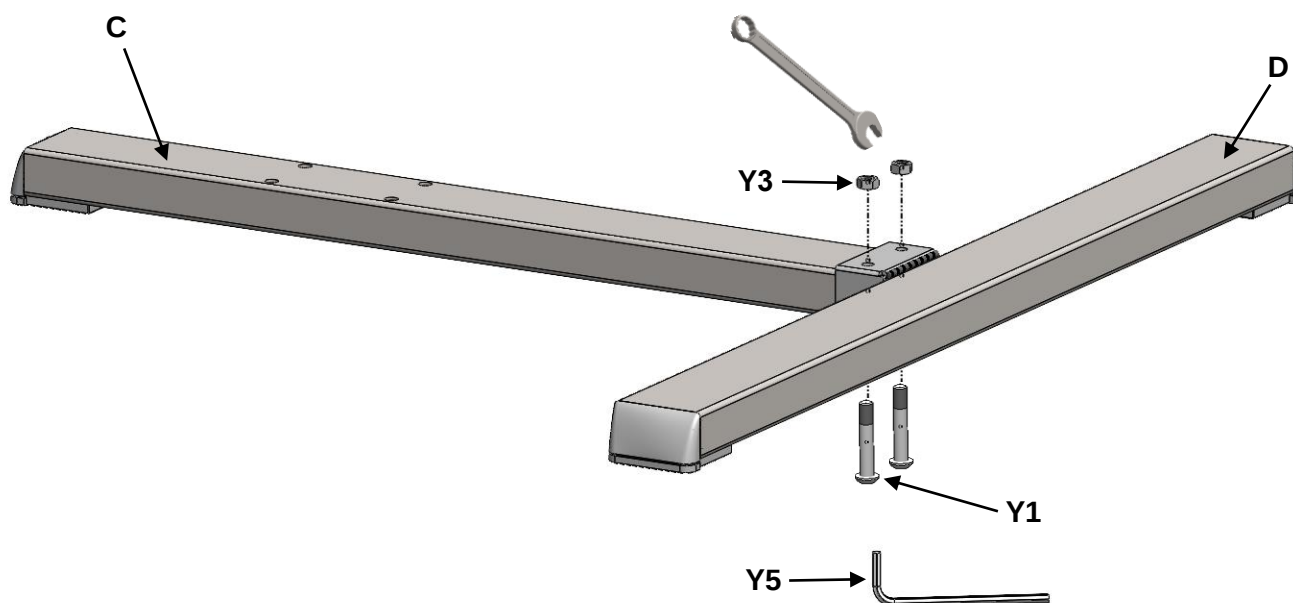

For more positioning options turn to page 13

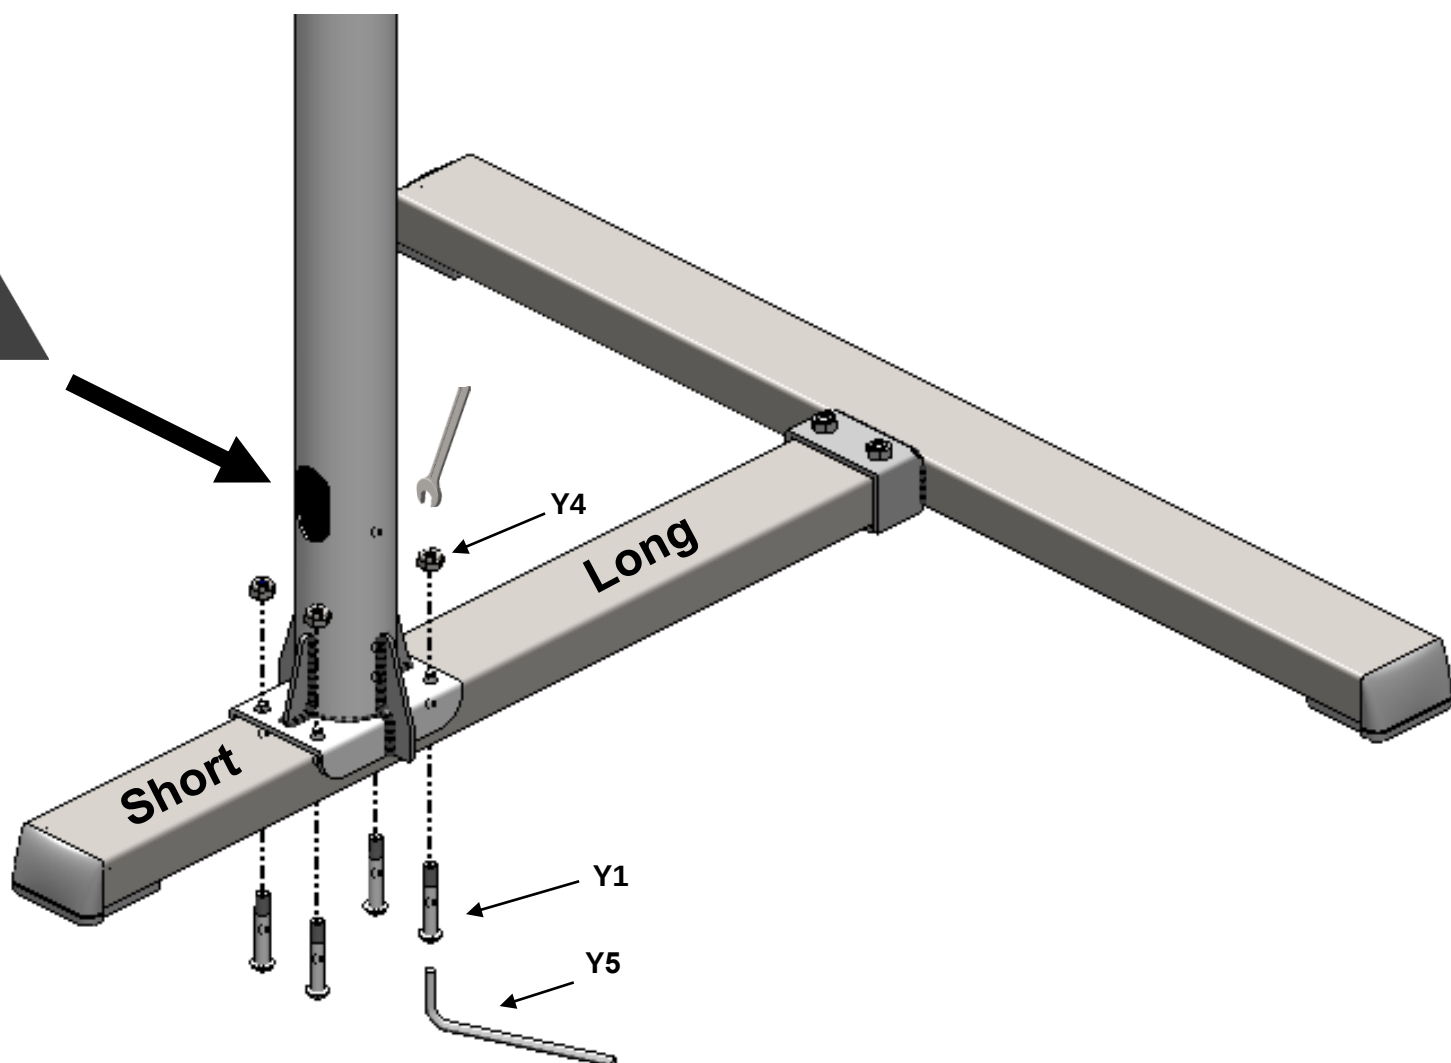

Connect the TV Plate with the Adaptors to the TV in all 4 connection holes

2 Connect central base (C) to front base (D).

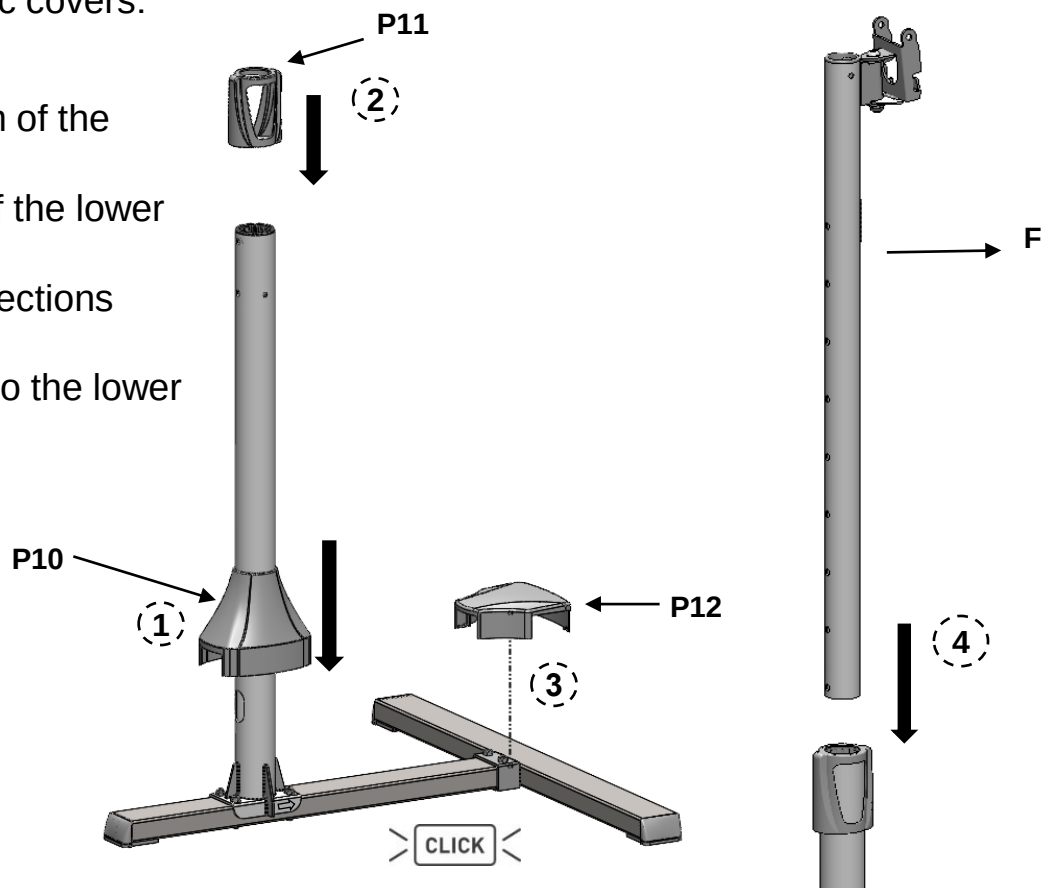

3 Connect the lower pipe (E) to the central base profile (C). Make sure that the cable hole is in the back.

4

Assemble the plastic covers:

1. Slide P10 to the bottom of the lower pipe.
2. Place P11 on the top of the lower pipe.
3. Place P12 on the connections between the beams.
4. Slide the upper pipe into the lower pipe.

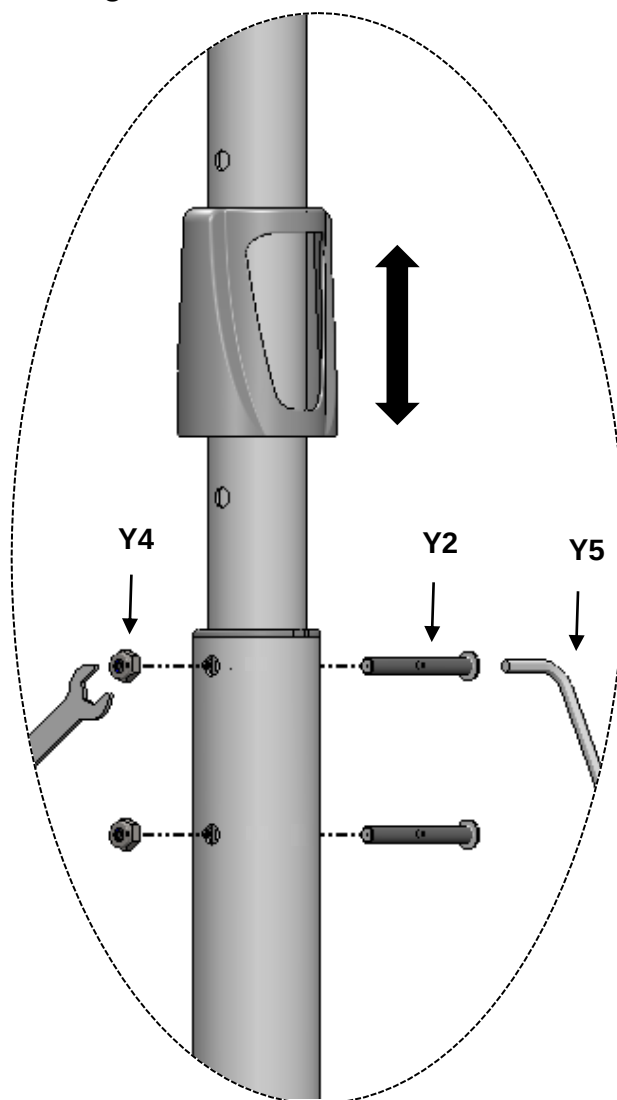

5

- (1) Pass the cables through the pipes.

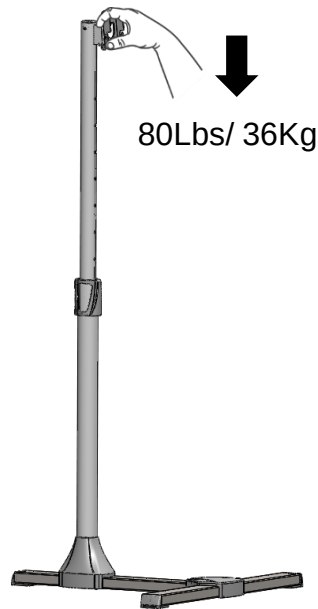

- (2) Adjust the stand to the desired height and connect the screws

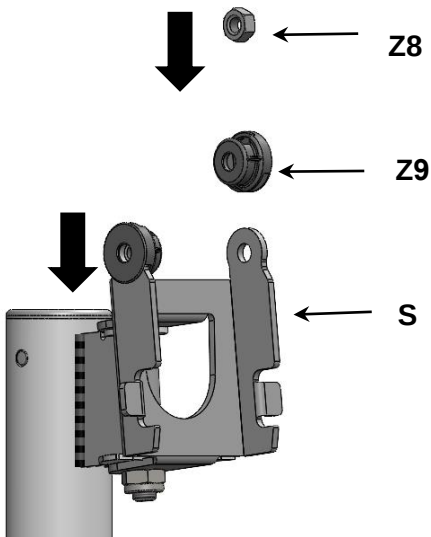

6 Weight test

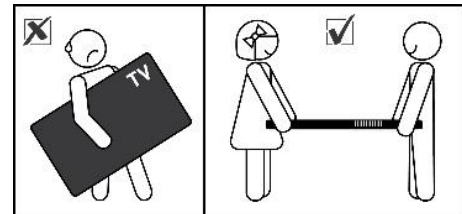

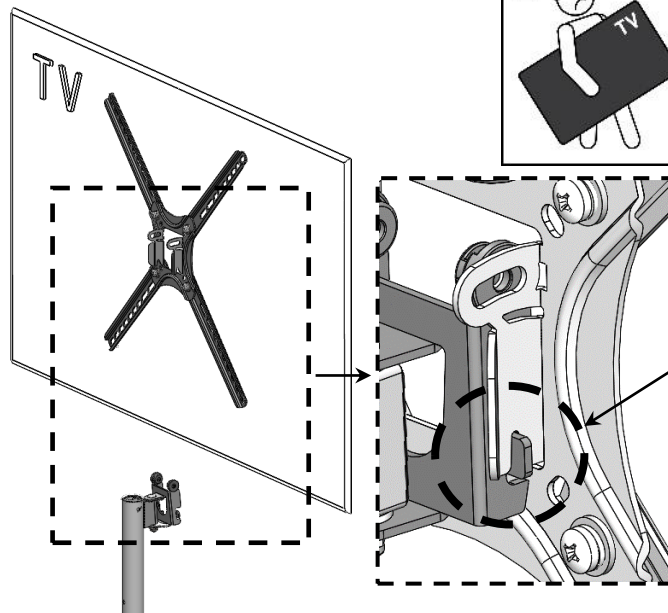

Apply force on the upper part of the product and make sure it is assembled properly.

7 Attach the plastic nut-housings (Z9), and then insert the nut (Z8).

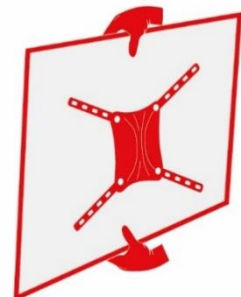

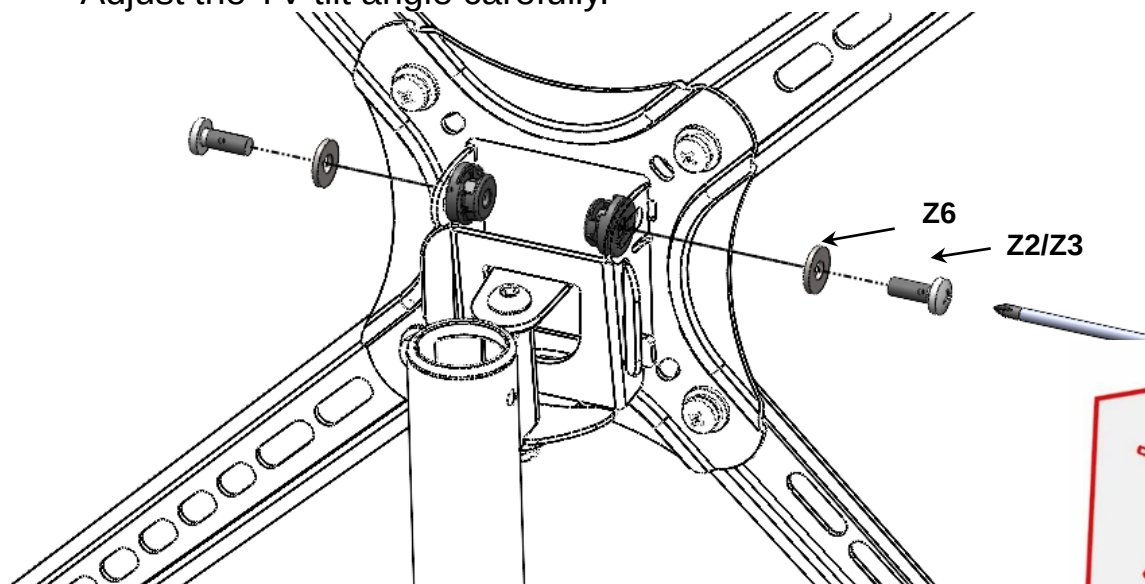

8 Connect the TV with the TV plate to the tripod

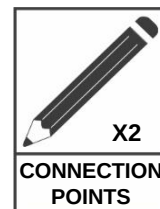

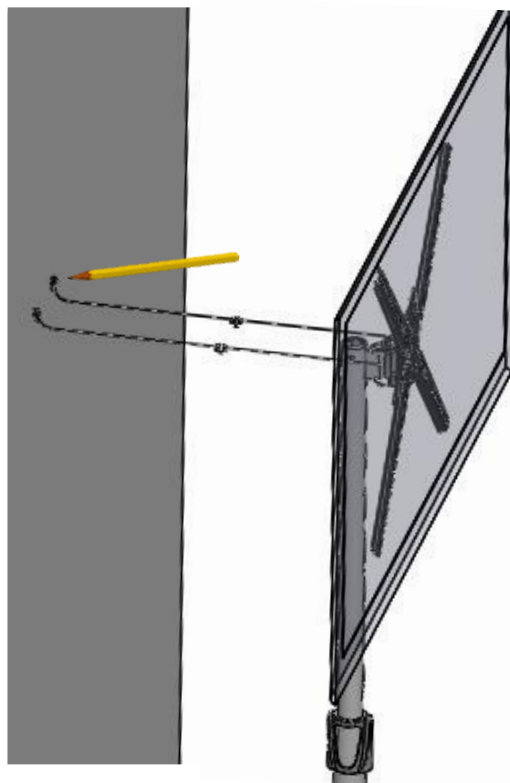

Make sure that the TV Plate slots are positioned properly

9 Insert and tighten the screws from both sides to create friction for the tilt mechanism. Adjust the TV tilt angle carefully.

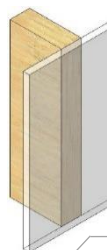

- 10** Mark the holes on the wall according to the desired position

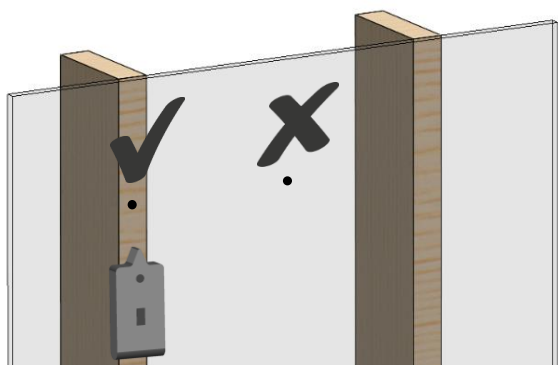

11

Follow the steps according to your wall type

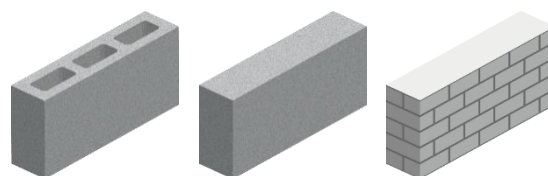

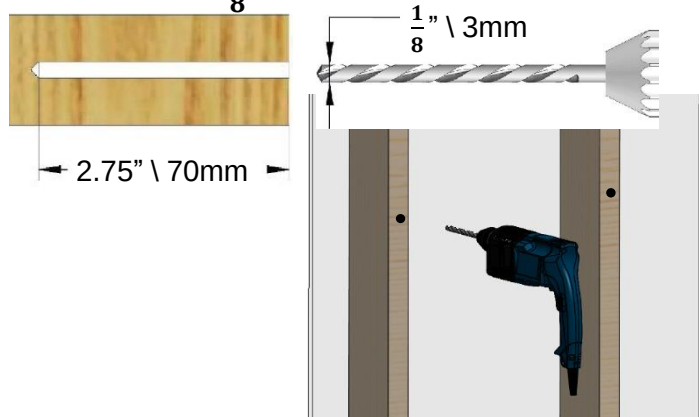

Make sure all holes are drilled inside the studs

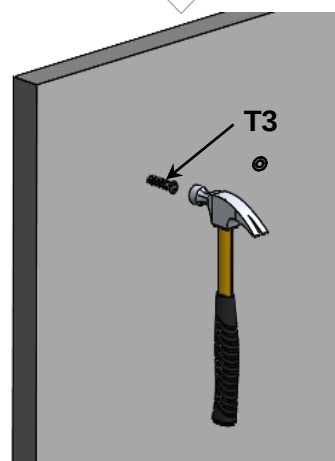

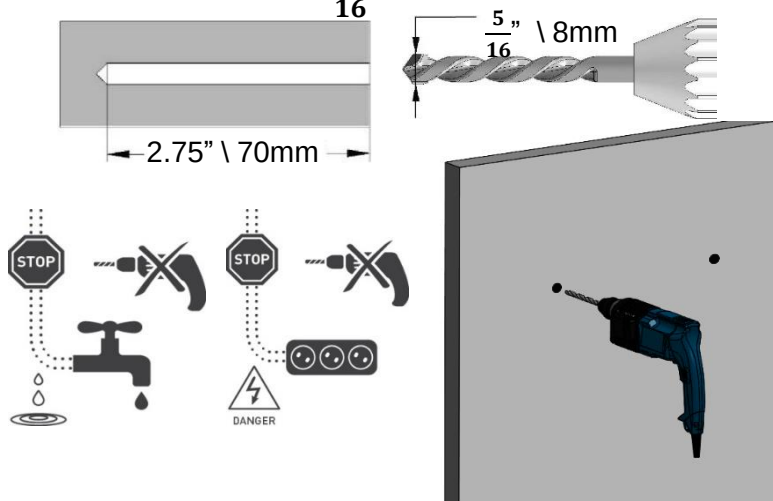

Use a Stud Finder

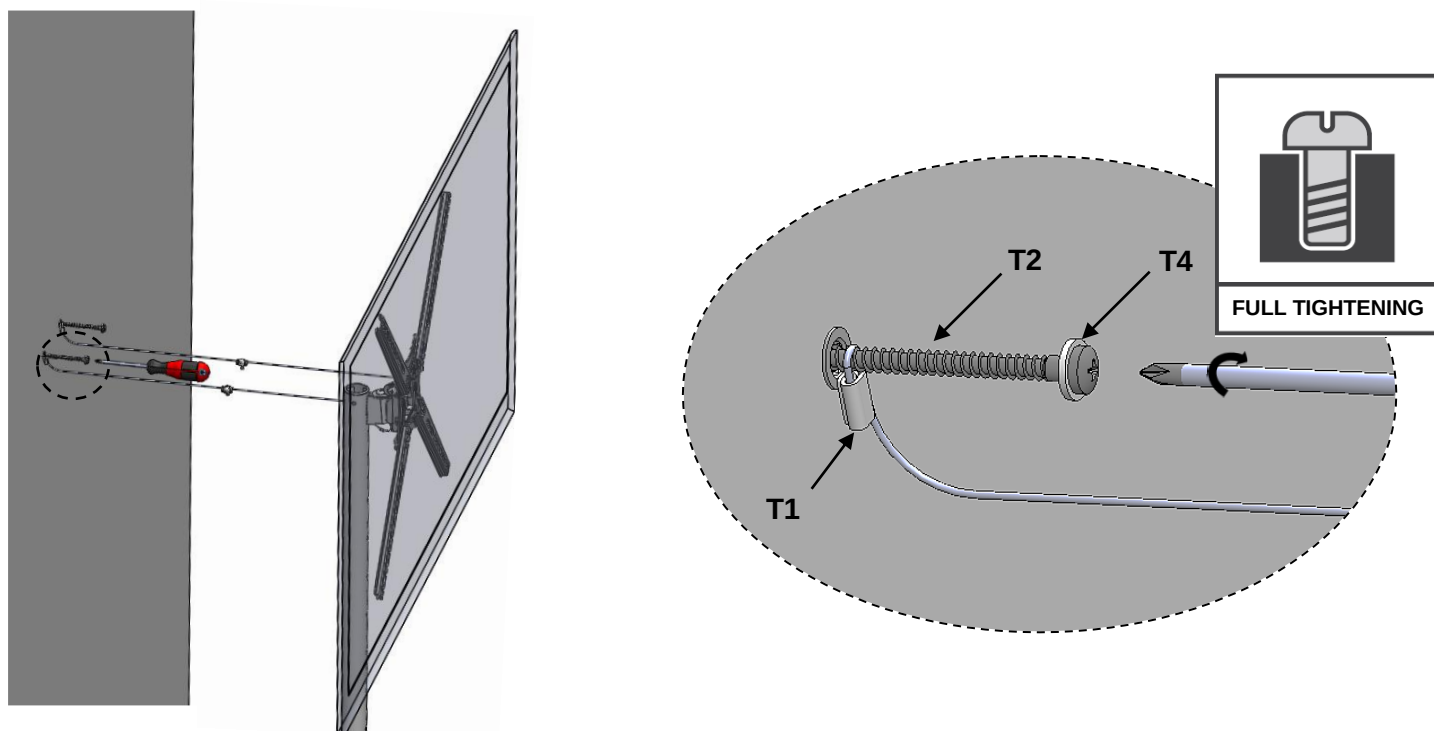

Drill with $\frac{1}{8}$ " \ 3mm drill bit

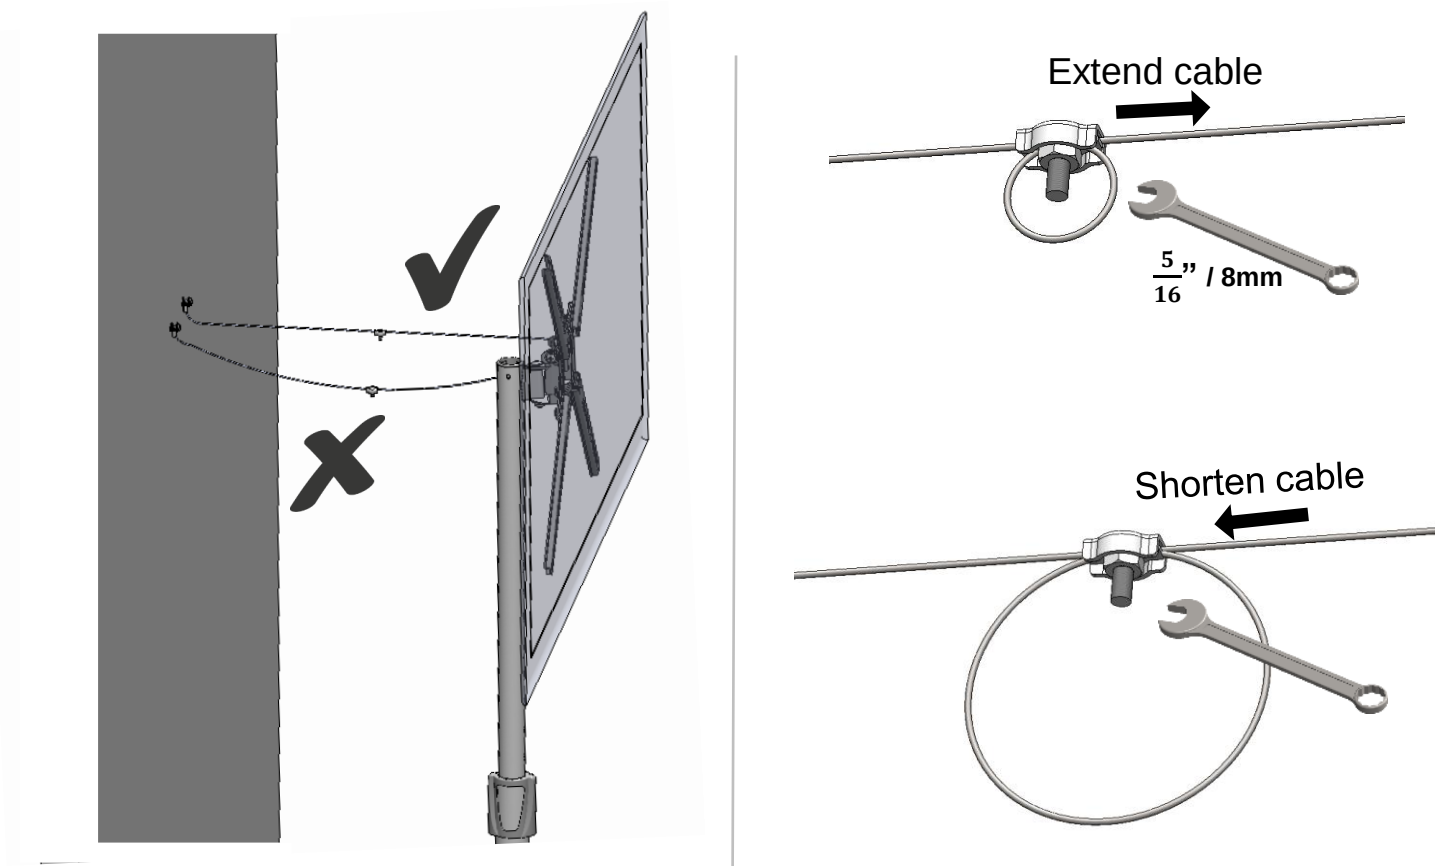

Drill with $\frac{5}{16}$ " \ 8 mm drill bit

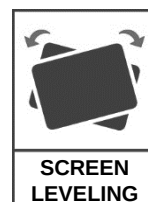

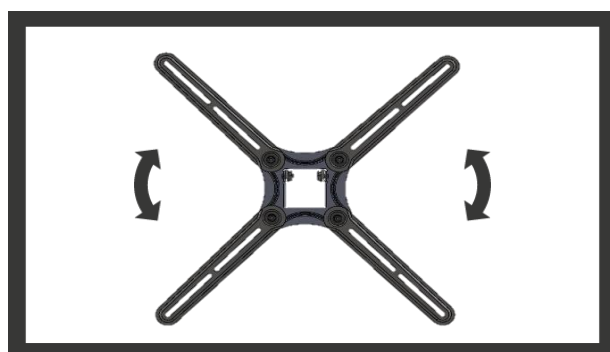

- 12** Connect the cables (T1) to the wall .

- 13** Make sure the cables are tighten. You can adjust the length using a wrench.

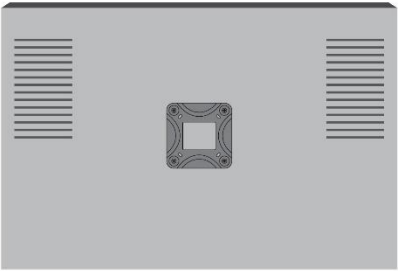

- 14** Level the TV.
