

EV CABLE HANGER

Description

The SV-EVACC-HNGR-V2 is a wall-mounted cable hanger designed for Type 2 EV plug connectors. Built from durable polycarbonate, it keeps your EV charging area neat and safe to move around. A simple, effective solution to protect your cable and connector from wear and tear while maintaining a clean, professional install.

One hanger is suitable for one EV charging cable only.

Included in kit

SV-EVACC-HNGR-V2	
Connector	Type 2 EV plug connector
Material	Polycarbonate
Mounting Method	Wall mount
Dimensions	L 167mm x W 80.6mm x H 72.8mm
Weight	0.2kg
Contents	1 x Cable hanger, 1 x Installation kit

Installation Instructions

1. Hold the hook against the wall and use a pencil to mark where the screws will go.
2. Drill the hole
 - Drywall without a stud: Use the wall anchors provided. Drill holes slightly smaller than your anchors. Push the anchors into the hole until they're flush with the wall.
 - Brick: Drill into brick (not the mortar). Push a masonry wall plugs into the holes until they're flush with the wall.
3. Place the cable hook over the holes and drive the screws through it into the wall (or anchor).
4. Tug gently on the hook to make sure it's secure.
