# Nexus 7 Folding Electric Scooter

## User Manual

[Revision 1.0]

---

READ THIS MANUAL CAREFULLY BEFORE USE – FAILURE TO DO SO MAY RESULT IN INJURY, PROPERTY DAMAGE AND MAY VOID WARRANTY. • KEEP THIS MANUAL FOR FUTURE REFERENCE. • Products covered by this manual may vary in appearance, assembly, inclusions, specifications, description, and packaging. • Check local regulations regarding the use of eScooters in your state or territory.

---

**THE BATTERY MAY HAVE SOME CHARGE ON ARRIVAL, IT IS IMPORTANT HOWEVER THAT THE BATTERY IS CHARGED PRIOR TO USE.**

# Safety

Safety messages are designed to alert you to possible dangers or hazards that could cause death, injury or equipment or property damage if not understood or followed. Safety messages have the following symbols:

You **WILL** be KILLED or SERIOUSLY INJURED if you do not follow instructions.

It is vital that you read and understand this user manual before using the product, including safety warnings, and any assembly and operating instructions. Keep the manual for future reference.

Safety precautions and recommendations detailed here must be fully understood and followed to reduce the risk of injury, fire, explosion, electrical hazard, and/or property damage.

Safety information presented here is generic in nature – some advice may not be applicable to every product. The term "equipment" refers to the product, be it electrical mains powered, battery powered or combustion engine powered.

- **Before Use** - If you are not familiar with the safe operation/handling of the equipment or are in any way unsure of any aspect of suitability or correct use for your application, you should complete training conducted by a person or organization qualified in safe use and operation of this equipment, including fuel/electrical handling and safety.
- Do NOT operate the equipment in flammable or explosive environments, such as in the presence of flammable liquids, gases, or dust. The equipment may create sparks or heat that may ignite flammable substances.
- Keep clear of moving parts.
- Equipment may be a potential source of electric shock or injury if misused.
- Do NOT operate the equipment if it is damaged, malfunctioning or is in an excessively worn state.
- Do NOT allow others to use the equipment unless they have read this manual and are adequately trained.
- Keep packaging away from children - risk of suffocation! Operators must use the equipment correctly. When using the equipment, consider conditions and pay due care to persons and property.

## General Work Area Safety

- Work areas should be clean and well lit.
- Do not operate the equipment if bystanders, animals etc are within operating range of the equipment or the general work area.
- If devices are provided for connecting dust extraction / collection facilities, ensure these are connected and used properly. Dust collection can reduce dust-related hazards.

You **CAN** be KILLED or SERIOUSLY INJURED if you do not follow instructions.

## General Personal Safety

- Wear appropriate protective equipment when operating, servicing, or when in the operating area of the equipment to help protect from eye and ear injury, poisoning, burns, cutting and crush injuries. Protective equipment such as safety goggles, respirators, non-slip safety footwear, hard hat, hearing protection etc should be used for appropriate equipment / conditions. Other people nearby should also wear appropriate personal protective equipment. Do not wear loose clothing or jewellery, which can be caught in moving parts. Keep hair and clothing away from the equipment.
- Stay alert and use common sense when operating the equipment. Do not over-reach. Always maintain secure footing and balance.
- Do not use the equipment if tired or under the influence of drugs, alcohol, or medication.
- This equipment is not intended for use by persons with reduced physical, sensory, or mental capabilities.

## General Fuel Safety

- Petrol/fuel/gasoline is extremely flammable – keep clear of naked flames or other ignition sources.
- Do not spill fuel. If you spill fuel, wipe it off the equipment immediately – if fuel gets on your clothing, change clothing.
- Do NOT smoke near fuel or when refuelling.
- Always shut off the engine before refuelling.
- Do NOT refuel a hot engine.
- Open the fuel cap carefully to allow any pressure build-up in the tank to release slowly.
- Always refuel in well-ventilated areas.
- Always check for fuel leakage. If fuel leakage is found, do not start, or run the engine until all leaks are fixed.

## General Carbon-Monoxide Safety

- Using a combustion engine indoors **CAN KILL IN MINUTES**. Engine exhaust contains carbon-monoxide – a poison you cannot smell or see.
- Use combustion engines OUTSIDE only, and far away from windows, doors, and vents.

You **CAN** be INJURED if you do not follow instructions or equipment damage may occur.

## General Equipment Use and Care

- Keep packaging away from children and pets, potential risk of suffocation or choking.
- The equipment is designed for domestic use only.
- Handle the equipment safely and carefully.
- Before use, inspect the equipment for misalignment or binding of moving parts, loose components, damage, or any other condition that may affect its operation. If damaged, have the equipment repaired by an authorised service centre or technician before use.
- Prevent unintentional starting of the equipment - ensure equipment and power switches are in the OFF position before connecting or moving equipment. Do not carry equipment with hands or fingers touching any controls. Remove any tools or other items that are not a part of the equipment from it before starting or switching on.
- Do not force the equipment. Use the correct equipment for your application. Equipment will perform better and be safer when used within its design and usage parameters.
- Use the equipment and accessories etc. in accordance with these instructions, considering working conditions and the work to be performed. Using the equipment for operations different from those intended could result in hazardous situations.
- Always keep equipment components (engines, hoses, handles, controls, frames, housings, guards etc) and accessories (cutting tools, nozzles, bits etc) properly maintained. Keep the equipment clean and, where applicable, properly lubricated.
- Store the equipment out of reach of children or untrained persons. To avoid burns or fire hazards, let the equipment cool completely before transporting or storing. Never place or store the equipment near flammable materials, combustible gases, or liquids etc.
- The equipment is not weather-proof, and should not be stored in direct sunlight, at high ambient temperatures or locations that are damp or humid.
- Do not clean equipment with solvents, flammable liquids, or harsh abrasives.
- For specific equipment safety use and care, see Equipment Safety.

### General Electrical Safety

- Inspect electrical equipment, extension cords, power bars, and electrical fittings for damage or wear before each use. Repair or replace damaged equipment immediately.
- Ensure all power sources conform to equipment voltage requirements and are disconnected before connecting or disconnecting equipment.
- When wiring electrically powered equipment, follow all electrical and safety codes.
- Always use a Residual Current Device (RCD) (GFCI) / Earth Leakage Circuit Breaker / Safety Switch when operating this item (electrical items only).
- High voltage / high current power lines may be present. Use extreme caution to avoid contact or interference with power lines. Electrical shock can be fatal.

### General Electrical Safety

- Electrically grounded equipment must have an approved cord and plug and be connected to a grounded electrical outlet.
- Do NOT bypass the ON/OFF switch and operate equipment by connecting and disconnecting the electrical cord.
- Do NOT use equipment that has exposed wiring, damaged switches, covers or guards.
- Do NOT use electrical equipment in wet conditions or in damp locations.
- Do NOT use electrical cords to lift, move or carry equipment.
- Do NOT coil or knot electrical cords, and ensure electrical cords are not trip hazards.

### General Service Information

- The equipment must be serviced or repaired at authorised service centres by qualified personnel only.
- Replacement parts must be original equipment manufacturer (OEM) to ensure equipment safety is maintained.
- Do NOT attempt any maintenance or repair work not described in this manual.
- After use, the equipment and components may still be hot – allow the equipment to cool and disconnect spark plugs and/or electrical power sources and/or batteries from it before adjusting, changing accessories, or performing repair or maintenance.
- Do NOT adjust while the equipment is running.
- Perform service-related activities in suitable conditions, such as a workshop.
- Replace worn, damaged or missing warning/safety labels immediately.

### Child Choking Hazard!

#### • **WARNING: CHOKING HAZARD - CHILDREN UNDER 8 YRS. CAN CHOKE OR SUFFOCATE ON SMALL PARTS. ADULT SUPERVISION REQUIRED.**

- Carefully inspect anything a baby or child could gain access to, including this product & packaging.
- Dangers include anything of a size that could become stuck or lodged in a baby or child's airway.
- Dangers include things like raw, hard fruit and vegetable pieces, large pieces of meat, bones or sausage skins, popcorn, nuts, hard lollies and corn chips, small magnets and batteries, coins, beads, marbles and small uninflated balloons, broken toys and smaller toys, buttons, keys, and coins. But there are also many more.
- Pay particular attention to accessories, nuts, bolts, screws, washers, caps, covers, loose parts, parts that could be removed or break off, pieces of packaging, staples, tape etc.
- In the case of any doubt, secure the item of concern in an appropriate manner, or completely remove the possibility of access by a baby or child.

### Electric Scooter Safety

- The Scooter is a recreational product. Before mastering riding skills, you need to practice. The supplier is not responsible for any injuries or damage caused by a rider's inexperience or failure to follow the instructions in this user manual.
- You can reduce risks by following all the instructions and warnings in this user manual, but you cannot eliminate all risks. Remember that whenever you ride the Scooter, you risk injury from loss of control, collisions, and falls. When entering public spaces, always comply with the local laws and regulations.
- As with other vehicles, faster speeds require longer braking distance. Sudden braking on low traction surfaces could lead to wheel slips or falls. Be cautious and always keep a safe distance between you and other people or vehicles when riding. Be alert and slow down when entering unfamiliar areas.
- Always wear a helmet when riding. Use an approved bicycle or skateboard helmet that fits properly with the chin strap in place and provides protection for the back of your head.
- Do not attempt your first ride in any area where you might encounter children, pedestrians, pets, vehicles, bicycles, or other obstacles and potential hazards.
- Respect pedestrians by always yielding the right of way. Pass on the left whenever possible. When approaching a pedestrian from the front, stay to the right and slow down. Avoid startling pedestrians. When approaching from behind, announce yourself and slow down to walking speed when passing. Please obey local traffic laws and regulations if situation is different.
- In places without laws, comply with the safety guidelines outlined in this user manual. The supplier is not responsible for any property damage, personal injury/death, accidents, or legal disputes caused by violations of the safety instructions.
- Do not allow anyone to ride your Scooter on his/her own unless they have carefully read this user manual and followed the New Rider Tutorial in the App. The safety of new riders is your responsibility. Assist new riders until they are comfortable with the basic operation of the Scooter. Make sure each new rider wears a helmet and other protective gear.
- Before each ride, check for loose fasteners and damaged components. If the Scooter makes abnormal sounds or signals an alarm, immediately stop riding. Diagnose your Scooter via the App and call your local dealer/distributor for servicing.
- Always be alert! Scan both far ahead and in front of your Scooter - your eyes are your best tool for safely for avoiding obstacles and low traction surfaces (including, but not limited to, wet ground, loose sand, loose gravel, and ice).
- To reduce risk of injury, you must read and follow all "CAUTION" and "WARNING" notices in this user manual. Do not ride at an unsafe speed. Under no circumstance should you ride on roads with motor vehicles. The manufacturer recommends riders be 14+ years old. Always follow these safety instructions:
- People who should not ride the Scooter include:
  - Anyone under the influence of alcohol or drugs.
  - Anyone who suffers from any diseases that puts them at risk if they engage in strenuous physical activity.

## Nexus 7 Folding Electric Scooter

- Anyone who has problems with balance or with motor skills that would interfere with their ability to maintain balance.
- Anyone whose weight is outside the stated limits (see Specifications).
- Pregnant women.
- Riders under the age of 18 years old should ride under adult supervision.
- Comply with local laws and regulations when riding this product. Do not ride where prohibited by local laws.
- To ride safely, you must be able to clearly see what is in front of you and you must be clearly visible to others.
- Do not ride in the snow, in the rain, or on roads which are wet, muddy, icy, or that are slippery for any reason. Do not ride over obstacles (sand, loose gravel, or sticks). Doing so could result in a loss of balance or traction and could cause a fall.
- Do not attempt to charge your Scooter if the charger or the power outlet is wet.
- As with any electronic device, use a surge protector when charging to help protect your Scooter from damage due to power surges and voltage spikes. Only use supplier's charger. Do not use a charger from any other different product models.
- Use only supplier-approved parts and accessories. Do not modify your Scooter. Modifications to your Scooter could interfere with the operation of the Scooter and could result in serious injury and/or damage and could void the warranty.
- Never lean forward while riding.
- Always ensure your centre of balance is toward the rear of the scooter to reduce chances of accident during braking or impact with an obstacle or a rough or soft surface.
- If local laws and regulations allow riding in areas that could be exposed to other people or vehicles, do not exceed a speed of walking pace while in these areas.
- **WARNING! AUTOMATIC OR UNINTENDED ACTIVATION OF CRUISE CONTROL (IF EQUIPPED) WHILE CORNERING AT THE LIMITS OF THE VEHICLE OR RIDER, OR DURING PERFORMANCE OF A WHEELIE, COULD RESULT IN LOSS OF CONTROL, ACCIDENT, INJURY OR DEATH.**

### Charging Safety

When charging the scooter, please pay attention to the following points:

- Ensure that it is charged in dry and clean environment, the input voltage should be between 110-240V, and the other end is connected to the charging port of the scooter.
- A red LED light indicates the scooter is being charged.
- If the charger LED light is green, charging is complete.
- For your safety, don't operate the scooter while charging.
- Disconnect the scooter from the charger when the charging is completed.

### Riding Notice

- The scooter is designed for recreational use. When used in public areas, it is treated as a vehicle and subject to the same risks. For your safety, follow all instructions in this manual and comply with local traffic laws and regulations.
- Respect pedestrians' right of way. Avoid startling them, especially children. When approaching from behind, ring your bell to alert them and slow down. Pass on the left (in regions where vehicles keep left, such as Australia). When riding near pedestrians, keep to the left and maintain a low speed. If necessary, dismount and walk the scooter.
- Follow all safety instructions in this manual. The manufacturer is not liable for any financial loss, injury, accident, legal dispute, or other issues resulting from improper use or failure to follow instructions.
- Inspect the scooter before each use. If you notice loose parts, low battery warnings, excessive wear, unusual noises, malfunctions, or other abnormal conditions, stop riding immediately.
- **WARNING: RISK OF FIRE. NO USER-SERVICEABLE PARTS INSIDE.**

## Safety Symbols

The product may have safety warning labels attached to it, explained below. Understand the symbols on your product and their meanings. If any stickers become unreadable, unattached etc., replace them.

|                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                    |

## Parts Identification

| No. | Name          | No. | Name             |
|-----|---------------|-----|------------------|
| 1   | Throttle      | 7   | Rear suspension  |
| 2   | Handlebar     | 8   | Rear wheel       |
| 3   | Brake lever   | 9   | Kickstand        |
| 4   | Stem          | 10  | Front wheel      |
| 5   | Folding lever | 11  | Front suspension |
| 6   | Rear mudguard | 12  | Front mudguard   |

## Setting Up the Scooter

When unpacking your electric scooter, please check that all items listed below are included. If any items are missing or damaged, contact the manufacturer for support.

### Included items:

- 1 × Charger
- 4 × Screws
- 1 × Allen key

## Quick Start

1. Close the latch securely until you hear a click. (Ensure it is fully tightened.)

2. Insert all four screws into the holes, then tighten each one securely.

### TIPS:

- If the folding mechanism is too loose or too tight, adjust the silver screw to slightly increase or decrease the tension (see Image A).

- If you notice noise from the rear brake disc or rear suspension, please contact the manufacturer for assistance.

# Operation

## Charging the Scooter

**WARNING!** DO NOT CHARGE IF THE CHARGE PORT OR POWER CORD IS WET. DO NOT CHARGE OR USE YOUR BATTERY IF IT IS DAMAGED OR WET. CLOSE THE CHARGING PORT COVER WHEN NOT CHARGING.

**ATTENTION:** Monitor battery usage when in use, the scooter may suddenly slow down as the battery charge reduces.

- The scooter is fully charged when the LED indicator on the charger changes from red to green.
- The scooter includes overcharge protection and will stop charging automatically once fully charged.
- Do not leave the scooter on charge for extended periods (more than 24 hours).
- Do not connect the charger if the charging port is wet.
- Keep the charging port closed when not in use.

## Control Panel

### Power Button

Press and hold the power button for 3 seconds to turn on the scooter.

### Battery Indicator

The battery level is shown by five bars on the control panel.

### Light

Press twice quickly to turn the light on or off.

### Mode

Press once to switch between speed modes: 6 / 15 / 25 km/h.

Walk mode: 3 km/h.

### Cruise Control

Maintain a constant speed for 6 seconds to activate cruise control.

This function is off by default. Press the button four times quickly until you hear a beep to turn cruise control on or off.

**NOTE: Cruise control is recommended for experienced riders, after about 6-8 seconds of continuously holding the throttle, you will hear a beep. The motor will then continue at a constant speed and will not stop until the brake is applied. It is recommended to leave cruise control off if you are not a confident rider.**

## Learning to Ride

When the scooter begins to move, place both feet on the deck and gently press the accelerator.

1. Wear an approved helmet and other protective gear to minimize any possible injuries.

2. Turn ON the Scooter and check its power level indicator. Charge the Scooter if the battery level is low.

**NOTE: Appearance may vary.**

3. Stand on the footrest with one foot and push off with another foot to start gliding.

**WARNING!** When hard braking, you risk serious injury due to loss of traction and falls. Maintain a moderate speed and look out for potential hazards.

4. Put your other foot on the footrest to keep both feet stable. Press the throttle on your right hand to speed up when you are well-balanced.

5. Slow down by releasing the throttle, and brake by squeezing the brake lever.

6. To turn, shift your body weight and turn the handle slightly.

## Safety Warnings When Riding

**WARNING!** FAILURE TO FOLLOW THESE INSTRUCTIONS COULD LEAD TO SERIOUS INJURIES!

**WARNING!** AUTOMATIC OR UNINTENDED ACTIVATION OF CRUISE CONTROL (IF EQUIPPED) WHILE CORNERING AT THE LIMITS OF THE VEHICLE OR RIDER, OR DURING PERFORMANCE OF A WHEELIE, COULD RESULT IN LOSS OF CONTROL, ACCIDENT, INJURY OR DEATH.

DO NOT ride the Scooter in the rain. DO NOT let it get wet.

DO NOT ride over bumps and potholes at HIGH SPEED.

Watch your head when passing through doorways.

DO NOT accelerate when going downhill.

DO NOT press the throttle when walking with the Scooter.

Avoid hitting obstacles with the tyre/wheel.

DO NOT carry heavy objects on the handlebar.

DO NOT ride the Scooter with only one foot.

DO NOT ride on public roads, motorways, or highways.

DO NOT rotate the handle suddenly while riding at high speeds.

DO NOT ride through puddles or other bodies of water.

The Scooter is for one rider only. Do not carry any passengers. Do not carry a child. Do not ride when pregnant.

DO NOT take your hands off the handlebar while riding. Do not ride with one hand only.

DO NOT ride up and down stairs or jump over obstacles.

**WARNING!** Always keep both hands on the handlebar or you risk serious injuries due to loss of balance and falls.

DO NOT touch the hub motor after riding because it can get very hot!

**NOTE:** Appearance may vary.

Do not use mobile phone or wear earphones when operating the Scooter.

## Folding and Carrying

Ensure the scooter is switched off before folding.

- **To fold:** unlock the folding mechanism, then lower the handlebar stem and secure it to the hook on the rear mudguard.
- **To unfold:** release the handlebar from the hook, raise the stem, and lock the folding mechanism securely in place.

## Disc Brake Adjustment

### Adjusting disc brake sensitivity

Use the Allen key to loosen the screw on the brake arm.

- If the brake is too sensitive, slightly rotate the brake arm downward, then retighten the screw to secure the brake cable.
- If the braking force is insufficient, slightly rotate the brake arm upward, then retighten the screw to secure the brake cable.

**Note: The disc brake may produce noise during initial use while it is bedding in. This is normal and does not affect performance.**

### Reducing disc brake noise

Ensure the scooter is switched off. For easier handling, place the scooter on a stable work surface.

1. Loosen the two screws on the brake caliper (not the screw on the brake arm).
2. Adjust the caliper position so the brake disc sits centred between the brake pads.
3. Ensure the brake disc and pads are not rubbing against each other.
4. Hold the caliper in position, then retighten the screws securely.

# Lithium Battery Care and Maintenance

## Top 3 Battery Care Requirements

1. **Charge battery before first use.** The battery may arrive with some charge, regardless of this the battery must be charged for 7 hours on the initial charge and 7 hours for each subsequent charge. 
2. **Charge battery immediately when it is depleted.** Do not store a depleted battery. This will permanently impact the life of the battery. If the battery is going to be stored for a period of time, fully charge the battery before storing. 

To ensure the battery maintains optimum performance, follow the guidelines outlined below.

- For best results, charge batteries in temperatures between 10°C and 30°C
- When battery is charged, disconnect the charger from the power supply and remove the battery from the charger.
- If a battery is stored or otherwise unused for an extended period, and the battery has no charge remaining when you check it, consider it to be damaged. Do not attempt to recharge it or to use it. Replace it with a new battery.
- Use only with the battery charger specified by the manufacturer.
- Ensure that the battery charger electrical cord is not subjected to damage or stress. Do not operate the battery charger if it has a damaged electrical cord or plug.
- Do not use the charger in wet areas or expose it to rain or water.
- The typical estimated life of a Lithium-Ion battery is about two to three years or 300 to 500 charge cycles, whichever occurs first. One charge cycle is a period of use from fully charged, to fully discharged, and fully recharged again.
- Explosion hazard – protect the battery against heat, for example, direct sunlight and fire. Do not store batteries in vehicles or locations subject to heat.
- Batteries can explode in the presence of an ignition source, such as a pilot light. To reduce the risk of serious personal injury, never use any cordless product in the presence of open flame. Exploding batteries can propel debris and chemicals.
- Do not open the battery – danger of short-circuiting and/or explosion.
- Do not attempt to destroy or disassemble the battery pack or remove any of its components.
- Do not touch the battery terminals with metal objects and/or body parts as short-circuit and/or personal injury may result.
- Explosion hazard – do not open and/or short-circuit the battery.
- Poison hazard – battery leakage (liquid ejection). Under extreme conditions, liquid may be ejected from the battery – avoid contact. If contact accidentally occurs, immediately seek medical attention, and flush with water. If liquid contacts eyes, immediately seek medical attention, flush with clean water for at least 10 minutes. Liquid ejected from the battery may cause irritation or burns.
- Dispose of non-serviceable batteries in an environmentally responsible manner and according to local regulations.

Failure to adhere to the requirements above may result in the battery becoming inoperative or battery life being reduced. In extreme cases or abuse, battery overheating, or fire may result.

## **DANGER - BATTERY CHARGING, USE AND STORAGE**

Like mobile phones, laptops, cordless vacuum cleaners etc, this product may contain or be related to a lithium ion battery pack (lithium ion batteries and lithium ion battery related items only). Lithium ion batteries allow fast charging and high capacities, however care must be taken to reduce chances of a fault, and increase safety in case a fault occurs. Catastrophic incidents involving lithium ion batteries have a tendency to result in large amounts of smoke and fire. Be sure to follow the points below to reduce the likelihood of danger whenever you use, charge or store any lithium ion battery.

- Never charge a battery that has been damaged or subjected to a forceful impact.
- Never charge a battery that has been exposed to moisture or water.
- Never charge a battery with a charger that wasn't supplied with the battery.
- Never use a battery in a device that it wasn't specifically designed for.
- Never use a battery with a modified or damaged device.
- Never modify the battery, product, charger, circuitry or wiring.
- Never charge a battery in an exit path that may be used by people to leave a room or building in case of an emergency, for example, the hallway or foyer of a residence.
- Never charge a battery in an area or building that doesn't have the recommended number of working smoke detectors that have been tested in accordance with local guidelines.
- Never charge a battery when the battery or charger is displaying a problem or charging incorrectly.
- Always charge batteries on a non-combustible surface, for example, on a concrete floor.
- Always charge batteries at least 3m away from anything combustible, such as floors, wall surfaces, furniture, storage shelves etc.
- Always charge batteries in an open area (outside if possible) ensuring the battery and charger are away from moisture and water.
- Always disconnect batteries from the charger after charging.
- Always remove or disconnect batteries from the device/product when not in use.
- Always ensure batteries are charged under adult supervision. Do not charge unattended. Do not charge batteries while no one is home or while people are sleeping.
- Keep batteries away from heat and moisture.
- Damaged batteries should be disposed of through your local e-waste collection service.
- Avoid mixing and matching chargers. Unplug products when fully charged, and charge batteries in a cool, dry place away from combustible materials like beds, lounges, or carpet.
- During charging and use, check your lithium-ion batteries for overheating, signs of swelling, leaking, or venting gas. Immediately stop using your product if these signs are present.
- Allow batteries to cool after use and before charging.

# Care and Maintenance

## Cleaning and Storage

If you notice dirt or stains on the scooter, wipe them off with a damp cloth. For stubborn stains, apply a small amount of toothpaste, gently scrub with a soft brush, then wipe clean with a damp cloth.

### Notes:

- Do not clean the scooter with alcohol, petrol, kerosene, or other corrosive or volatile solvents, as these may cause damage.
- Do not use a high-pressure water spray. Before cleaning, ensure the scooter is switched off, the charging cable is unplugged, and the charging port cover is closed. Water ingress may cause electric shock or damage.
- When not in use, store the scooter indoors in a cool, dry place.
- Do not leave the scooter outdoors for extended periods. Excessive sunlight, heat, or cold can reduce battery life.

## Battery Maintenance

- Use only the original battery pack. Using other models or brands may cause safety issues.
- Do not touch the battery contacts. Do not dismantle or puncture the battery casing. Keep contacts away from metal objects to prevent short circuits, which may cause damage, injury, or death.
- Use only the original power adapter to avoid potential damage or fire.
- Dispose of used batteries in accordance with local regulations to protect the environment.
- After each use, charge the battery to help maintain its lifespan.

## Storage and Disposal

- Store the scooter in a cool, dry place between -10°C and 40°C. In very humid conditions, condensation may form inside the scooter and cause damage. Avoid use at elevations above 2,000 m. Protect the scooter from prolonged exposure to UV, rain, and other environmental conditions. Store indoors when not in use.
- Avoid fully discharging the battery before recharging. If the battery is low, recharge it as soon as possible.
- Charge the scooter at least once every two months to maintain battery health.

## FAQs

### ***1. What if the e-scooter arrives with missing or damaged parts?***

A: Take a photo and contact the manufacturer. The manufacturer will respond and arrange a replacement part if required.

### ***2. Can the tyre be replaced, and how do I replace it?***

A: Yes, the tyre is replaceable. Contact the manufacturer for further instructions or refer to an online tutorial for guidance.

### ***3. What if the rear disc brake is not working properly?***

A: Contact the manufacturer for adjustment instructions, or refer to an online tutorial on adjusting the rear brake.

### ***4. What should I do if I hear unusual noise from the rear wheel?***

A: This is usually caused by the disc brake being misaligned and creating friction. Refer to the Disc Brake Adjustment section. If the issue persists, contact the manufacturer for assistance.

### ***5. Why does the screen display an error code?***

A: If an error code appears, contact the manufacturer for assistance in resolving the issue.

## Specifications

**Some experts believe that the incorrect or prolonged use of almost any product may cause serious injury or death. To help reduce your risk of serious injury or death, refer to the information below. For more information, see [www.datastreamserver.com/safety](http://www.datastreamserver.com/safety)**

- Consult all documentation, packaging, and product labelling before use. Note that some products feature documentation available online. It is recommended to print and retain the documentation.
- Before each use, check the product for loose/broken/damaged/missing parts, wear, or leaks (if applicable). Never use a product with loose/broken/damaged/missing parts, wear, or leaks.
- Products must be inspected and serviced (if applicable) by a qualified technician every 6 months. This is based on average residential use by persons of average size and strength, and on a property of average metropolitan size. Use beyond these recommendations may require more frequent inspections/servicing.
- Ensure that all users of the product have completed a suitable industry recognised training course before being allowed access to the product.
- The product has been supplied by a general merchandise retailer that may not be familiar with your specific application or description of application. Be sure to attain third-party approval from a qualified specialist for your application before use, regardless of any assurances from the retailer or its representatives.
- This product is not intended for use where fail-safe operation is required. As with any product (for example, automobile, computer, toaster), there is the possibility of technical issues that may require the repair or replacement of parts, or the product itself. If the possibility of such failure and the associated time it may take to rectify could in any way inconvenience the user, business, or employee, or financially affect the user, business, or employee, then the product is not suitable for your requirements. This product is not intended for use where incorrect operation or a failure of any kind, including but not limited to, a condition requiring product return, replacement, parts replacement, or service by a technician may cause financial loss, loss of employee time or an inconvenience requiring compensation.
- If this product has been purchased in error when considering the information presented here, contact the retailer directly for details of their returns policy, if required.

## E-micromobility vehicle information

**WARNING! Follow these safety instructions to reduce the risk of fire, explosion and electric shock.**

**DO:**

- Only use batteries and chargers supplied or recommended by the manufacturer.
- Compatible products:

*Model details and number:*

*Model details and number:*

- Maximum charging time this vehicle should be charged for:
- Charge your vehicle and batteries in an open area away from combustible and highly flammable materials, such as beds, sofas and carpets.
- Store and charge your vehicle and batteries in a cool, dry place away from direct sunlight.
- Store and charge your vehicle and its batteries away from doorways.
- Allow time for batteries to cool before recharging or storing.
- Keep batteries away from moisture, heat and impact.

**WARNING! Modifying or tampering with your vehicle can result in a fire, explosion or electric shock.**

**DON'T:**

- Modify or tamper with any component of this vehicle.
- Charge this vehicle for more than the recommended charge time.
- Leave charging batteries unattended or on charge overnight.
- Use or charge a damaged battery.
- Use or charge this vehicle if it is damaged.
- Use batteries or vehicles that are overheating or showing signs of failure, such as swelling, leaking or venting gas.
- Buy or use a vehicle or battery that has been altered or modified.

*This section is optional*

**Do not attempt to repair your damaged vehicle, take it to a qualified repair person**

For further information on service and repair of your vehicle or battery,

*Insert preferred contact method, such as website, email or phone number*

---

**6**

**WARNING! Fires involving lithium-ion batteries can occur rapidly and can be violent, involving toxic smoke and vapours, flames, and molten projectiles.**

**If your vehicle or battery emits sparks, smoke or flames, evacuate the area and call Triple Zero (000). Close doors if safe to do so.**

Warning signs include:

- Pungent odours
- Discolouration, blistering, bulging, or swelling of the casing
- Leaking electrolyte
- Heating up and becoming extremely hot to touch
- Abnormal popping, hissing or crackling sounds, smoke, and fumes

Never touch a swollen or ruptured device or battery with bare hands.

Seek urgent medical assistance if anyone has been exposed to spilled electrolyte, flying debris, smoke or vapours, or flames.

Make sure you know what to do if your device or battery is smoking or on fire:
