

Blade Sensor Function Pneumatic Flush Panel Black Glass for PA111/PA121

PA270

The [Blade Sensor Function Pneumatic Flush Panel](#) in Black Tempered Glass brings the touchless flushing experience to the PARISI toilet range. The panel will automatically detect the user and illuminate. A simple wave of hand in front of the full or partial flush icon activates the toilet flushing system. The system will also automatically flush if the user exits the bathroom without activating the panel.
