Position the Adaptors according to your TV's hole pattern

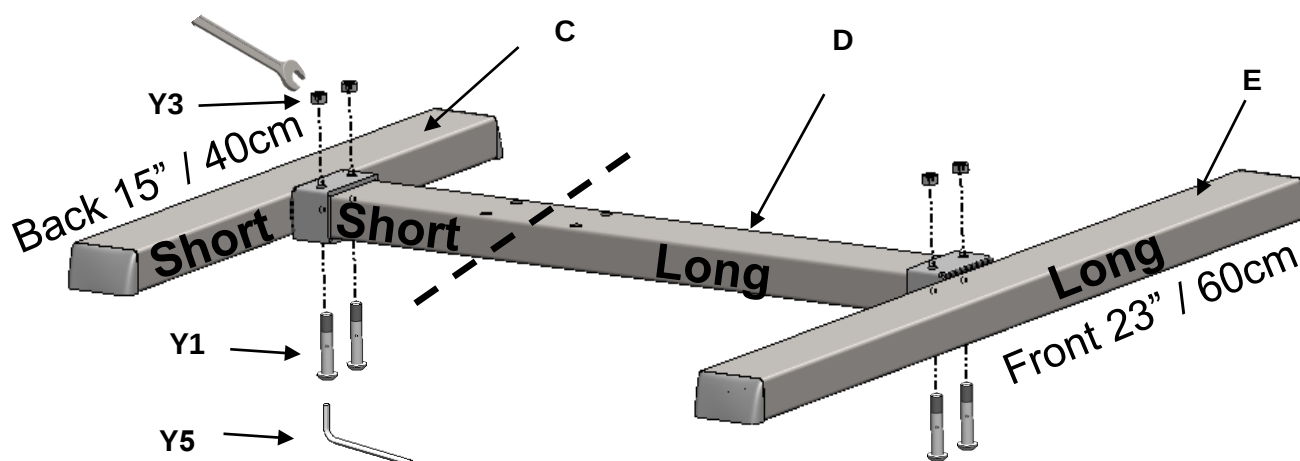

For more positioning options turn to page 12

Connect the TV Plate with the Adaptors to the TV in all 4 connection holes

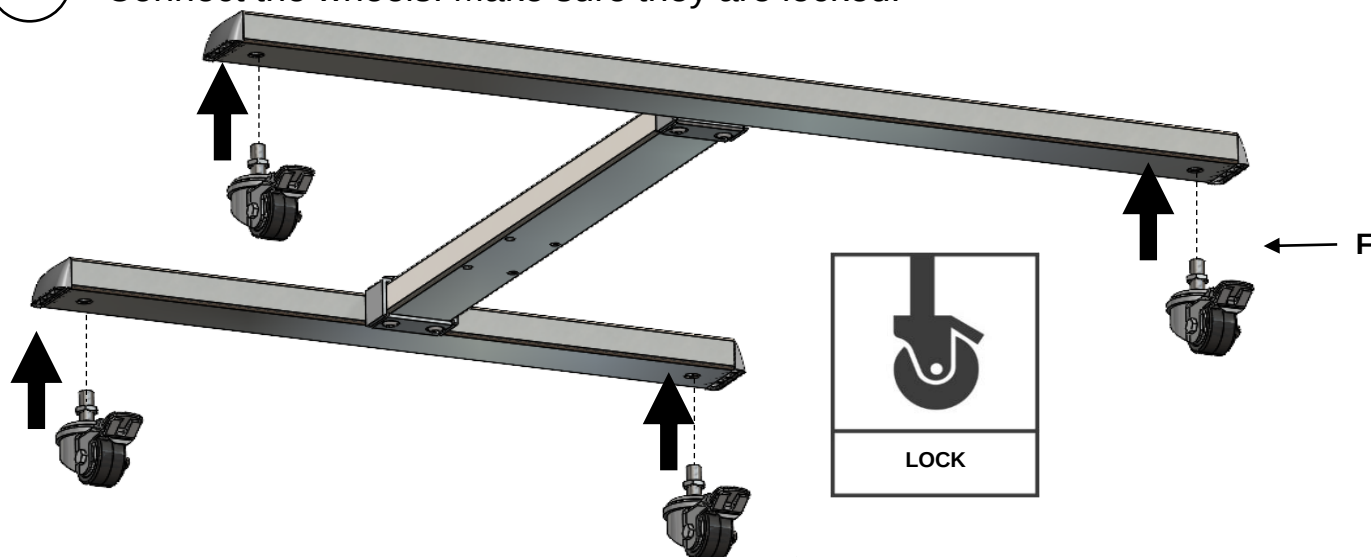

2

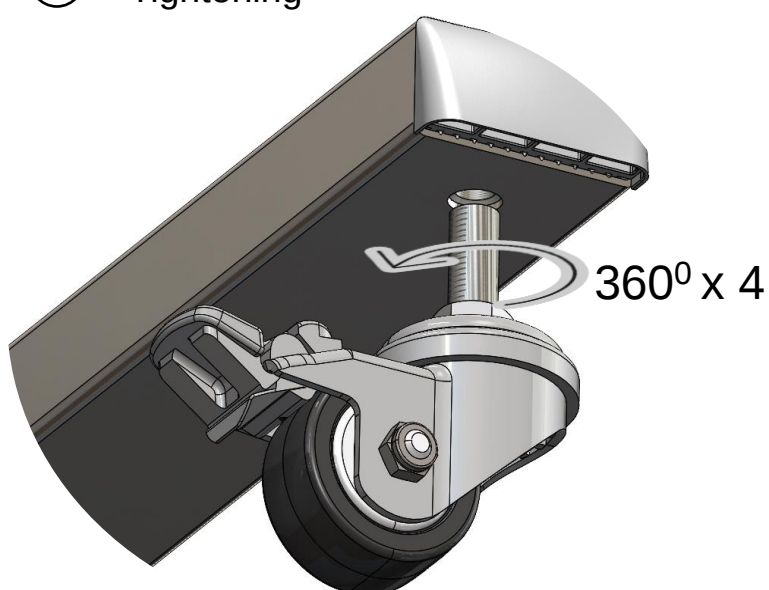

Connect the base beams. Long beam (Front) – long distance, short beam (Rear) – short distance

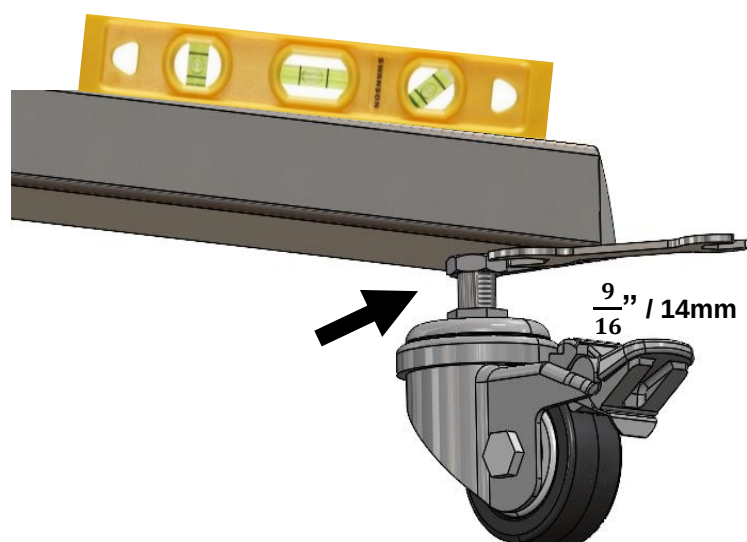

3 Connect the wheels. Make sure they are locked.

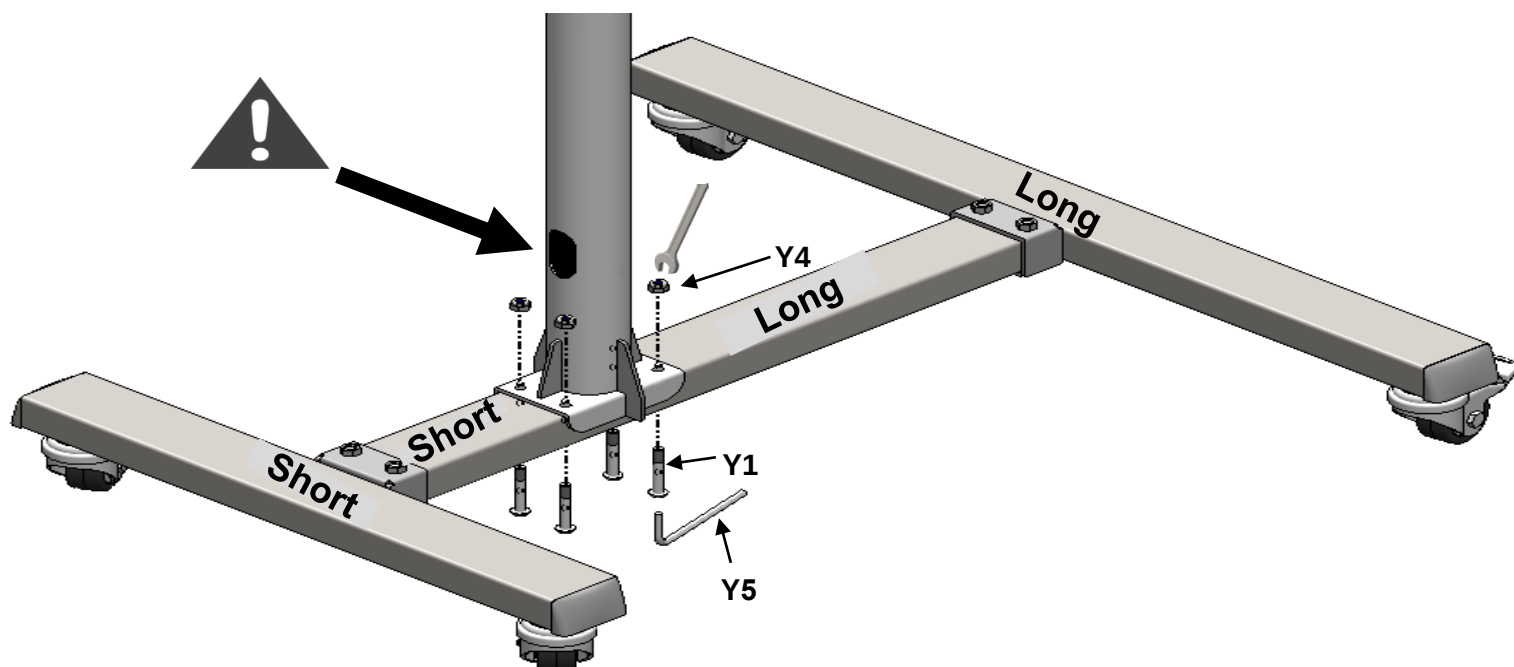

A Tightening

B Leveling

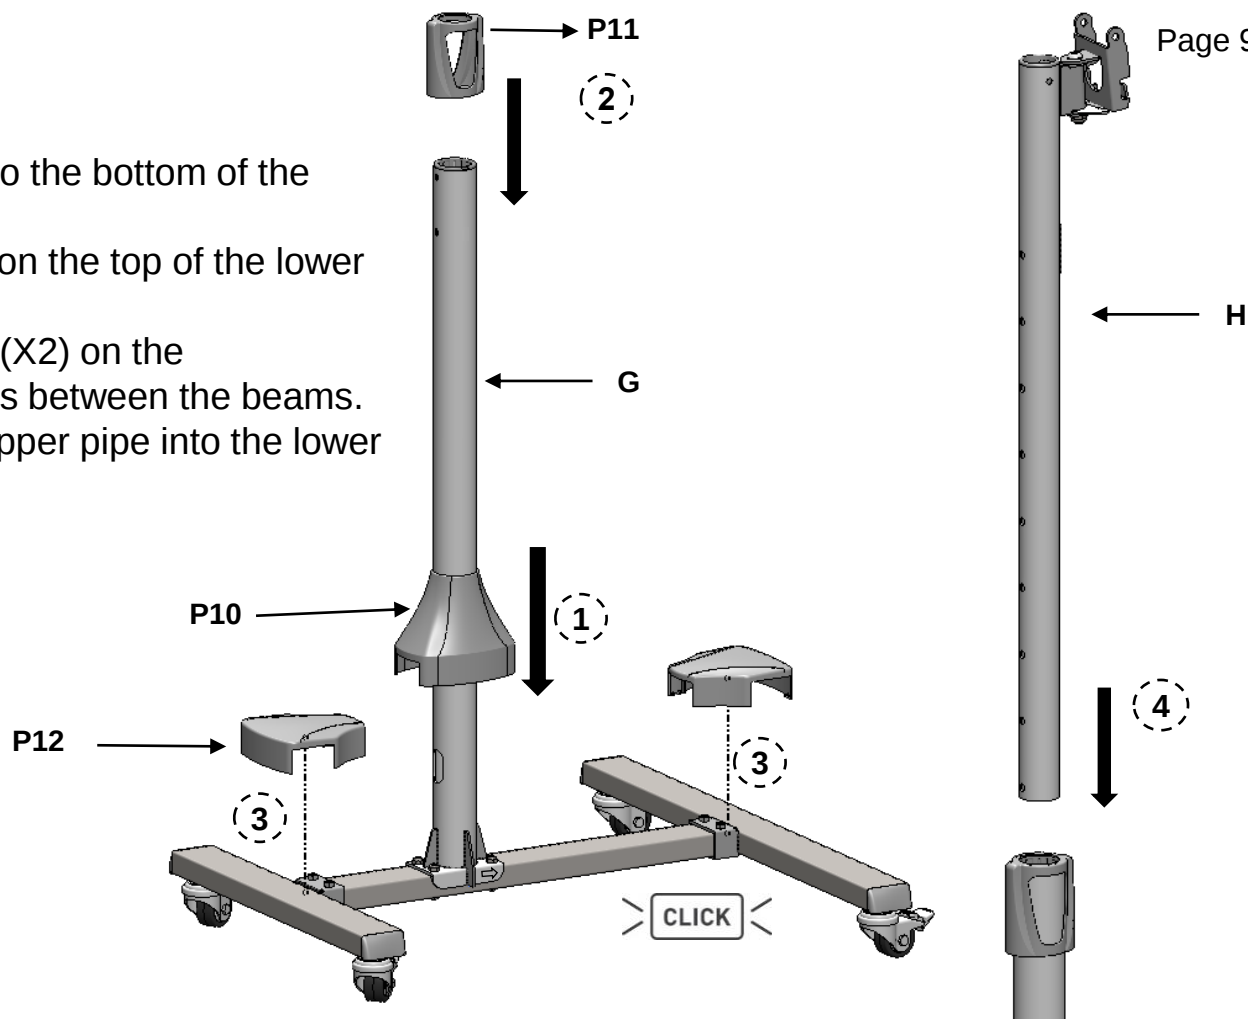

4 Connect the lower pipe (G) to the central base (D). Make sure that the cable hole is in the back.

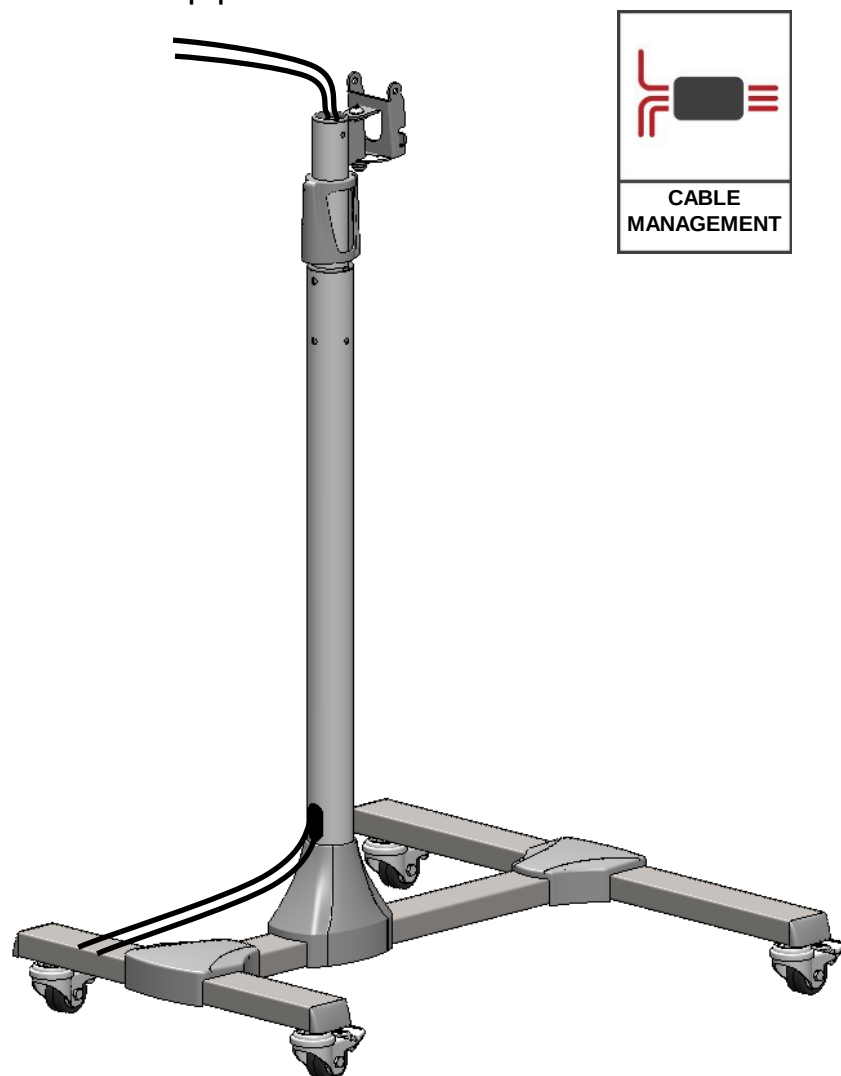

5

1. Slide P10 to the bottom of the lower pipe.
2. Place P11 on the top of the lower pipe.
3. Place P12 (X2) on the connections between the beams.
4. Slide the upper pipe into the lower pipe.

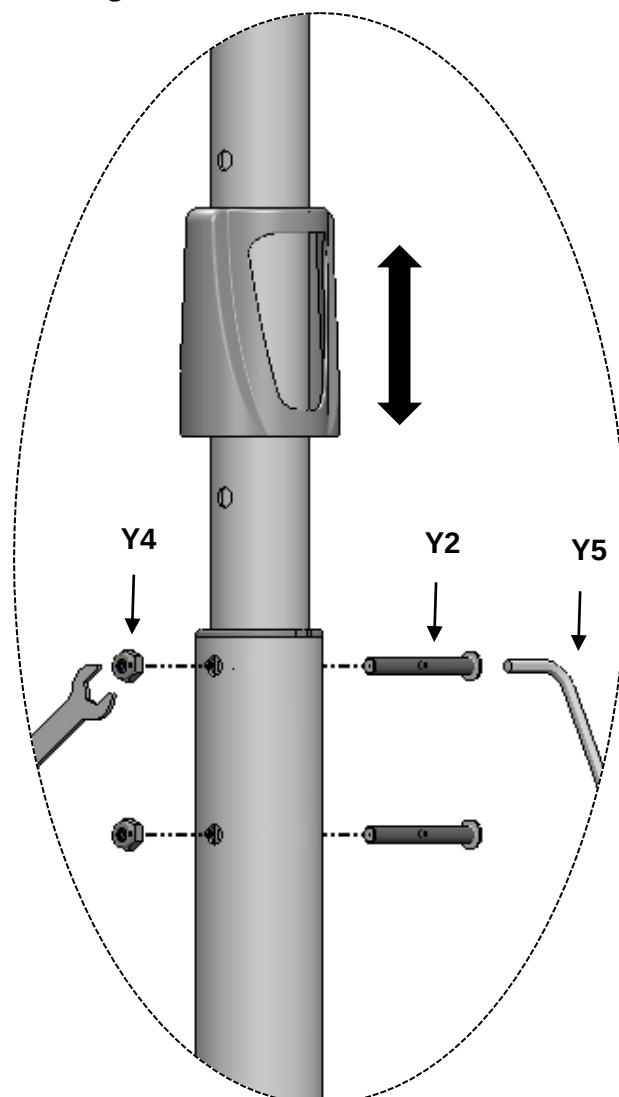

6

1. Pass the cables through the pipes.

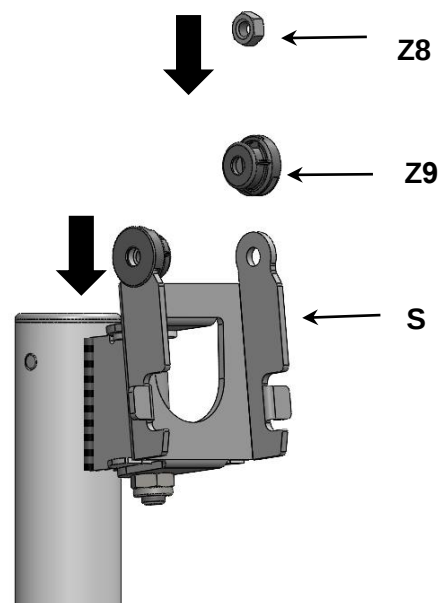

2. Adjust the stand to the desired height and connect the screws

7

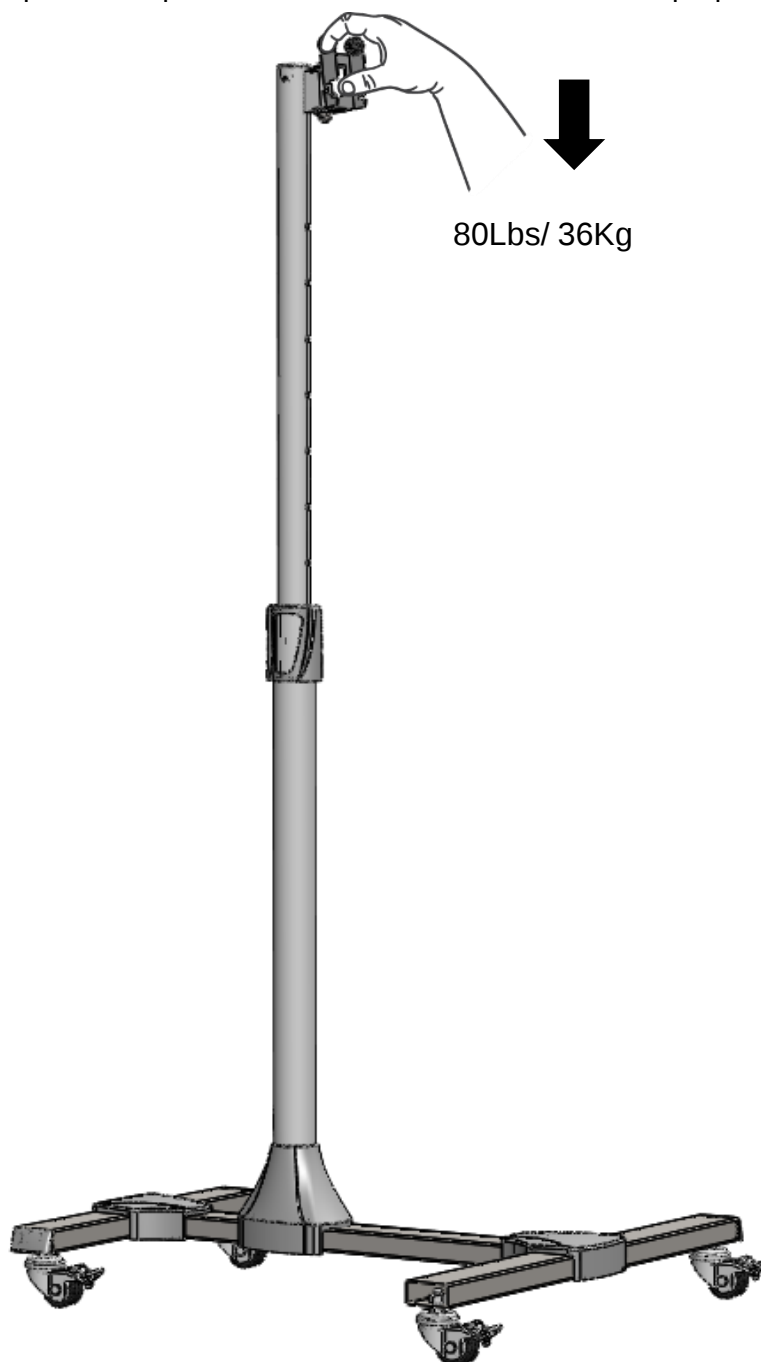

Place the plastic nut-housings (Z9), and then insert the nut (Z8).

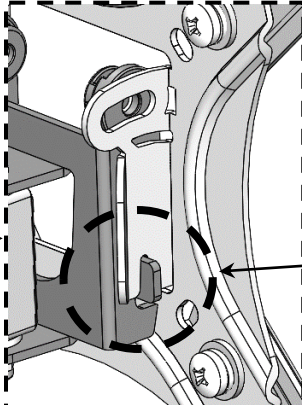

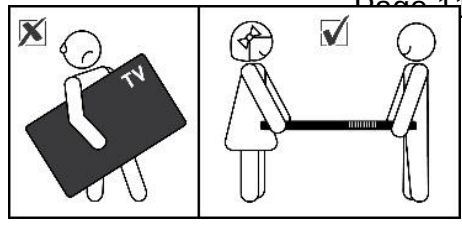

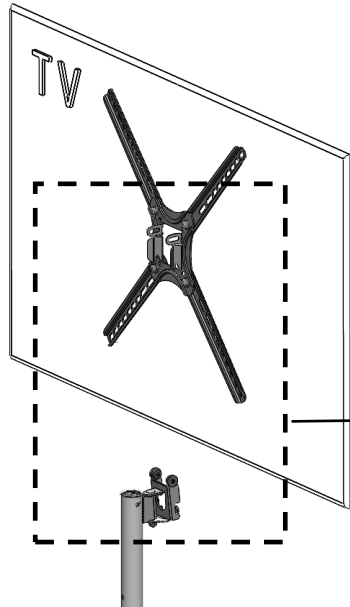

8

Weight test

Apply force on the upper part of the product and make sure it is assembled properly.

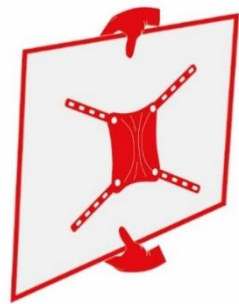

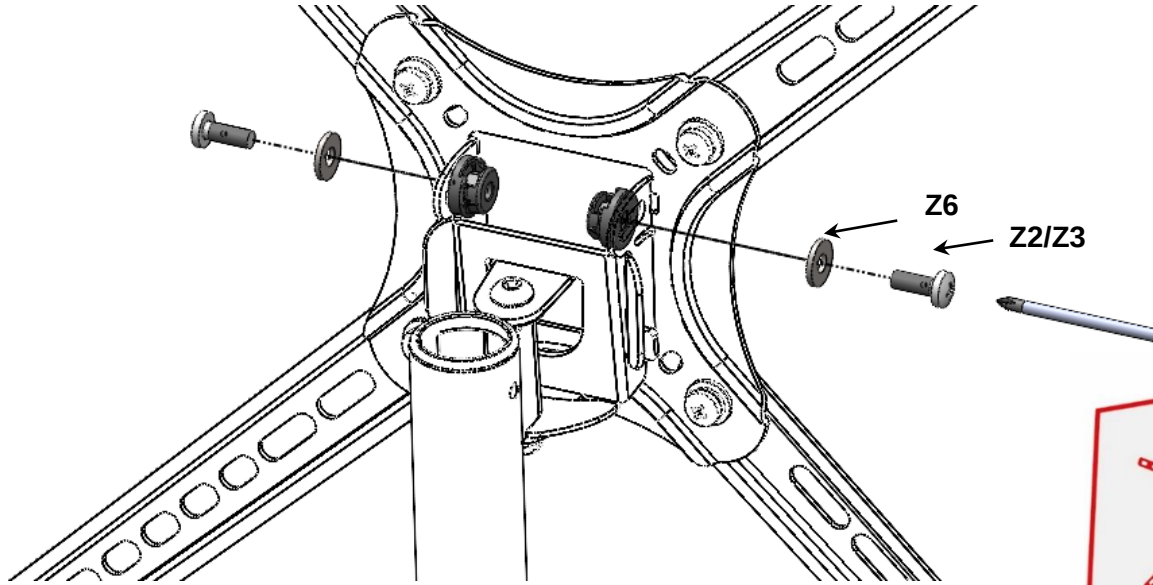

9 Connect the TV with the TV Plate to the Bracket

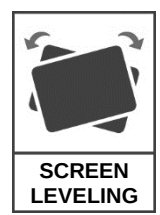

Make sure that the TV Plate slots are positioned properly

10 Insert and tighten the screws from both sides to create friction for the tilt mechanism. Adjust the TV tilt angle carefully.

11 Level the TV
