

Lifestyle ClimbMill

PREMIUM LED CONSOLE

CM-LS-F

Created for low-volume facilities, our Lifestyle ClimbMill features a compact design that makes it possible to bring climbing workouts to facilities with lower ceilings. Smart features make workouts comfortable and secure, and our durable components will keep your people climbing for years. It's even as easy to service as it is to use, so it will always be ready.

Give members the intuitive navigation of an LED with a more engaging look. An 8,000-pixel display fills the screen with color and sharp graphics, providing clear, easy-to-read feedback in large numbers and letters.
