Water proof rating: IPX4

WELS: 4 stars - 3/4.5L

WELS License / Reg No: 1483 / L06546

Set-out: P-trap 220mm

Finish: White

NOTE!!!

The Neion floor mount water closet pan with integrated bidet seat complies with WMTS-051.

Bidet seat has integral break tank with air gap complying with AS 2845.2. Thus it meets the High-Hazard backflow prevention requirements of AS/NZS 3500.1 without the need for a RPZ valve.

The Neion intelligent toilet, by Arcisan, was created by combining the aesthetics of a rimless toilet pan with the cleaning functions of bidets.

With a soft-close wrap seat, it also hosts a 2-user memory, so you can easily program your specific requirements. The Neion is fully customisable with gender specific functions, massage function, drying functions, pressure increase / decrease, air temperature controls, water temperature controls, LED night light and deodoriser (using diatomaceous mud filter).

Many of these functions are accessible through the easy to use remote control or the quick access option for the basic functions by simply turning the control knob on the side of the seat back and forth.

The Neion intelligent toilet has been engineered to be easy to clean. The ceramic surface in the bowl has a special glaze incorporating nano-technology. Called 'CleanTect', this special glaze enables your pan stay cleaner for longer by giving the ceramic a smoother surface at a microscopic level. In addition, the nozzle is self-cleaning before and after every use plus the tank runs a self cleaning mode if left in standby for an extended period of time.

Concealed Cistern with frame

ARO4460-SP-NE

WELS: 4 star

Litres/min: 4.5 / 3

Inlet Position: Top left

Material: High density polyethylene

The concealed, dual flush cistern with frame is made from high density polyethylene, incorporating inbuilt overflow. This cistern is suitable for in-wall and under counter installation.
