IMPROVING & EVOLVING

We strive to improve, every day. Whether it's developing new smart technologies, coming up with fresh designs or refining existing ones we are constantly innovating and setting trends for the industry.

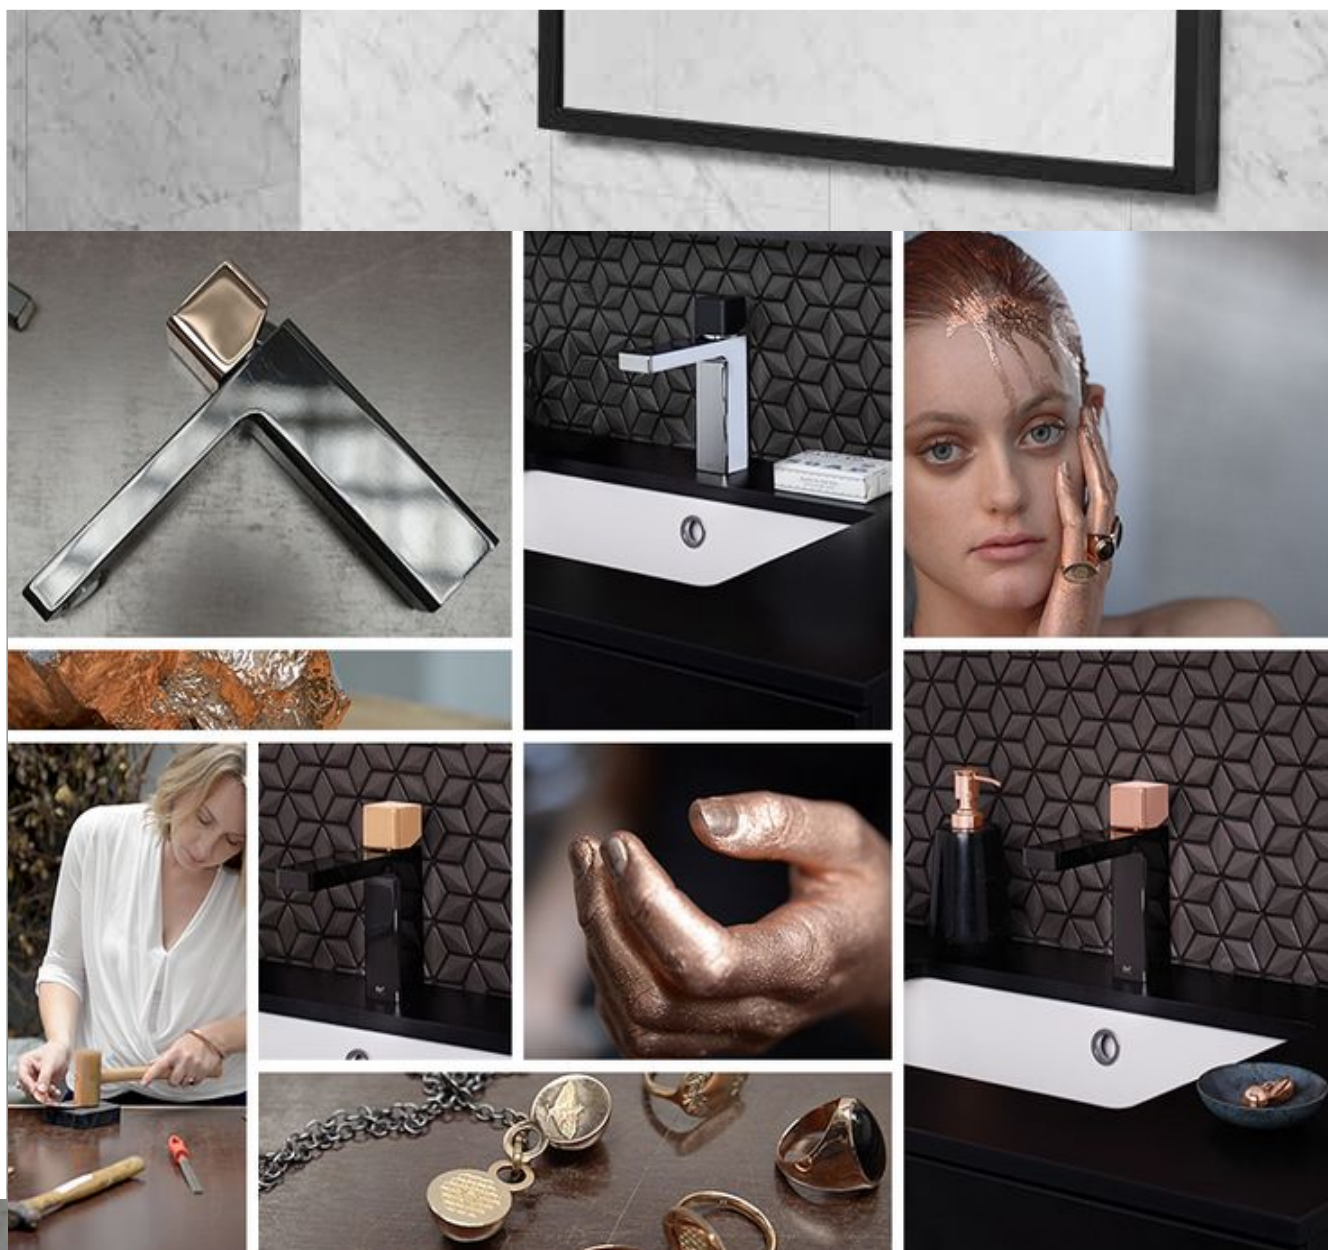

The world is changing, fast. As well as being on top of the latest technological innovations we constantly look for the best and most current ideas in design, beauty and art. Because at Dorf it's always about how we can live... better.

'Designer jewellery' for the bathroom.

For centuries, jewellery has been adopted as a form of individual style and artistic expression; a cultural status symbol; a conveyer of personal meaning. Tapware should be no different. While they clearly differ in terms of their functional uses, both manifest luxury, prestige and endearing characteristics that make the "wearer" unique.
