## Kudos 60 Backlit Mirror

KU06110

**Volts:** 240V (hardwire)

**Backlit:** Yes

**Demister:** Yes

**Clock:** No

**Magnifier:** No

The Kudos mirror is one of the new feature packed LED backlit mirrors from Arcisan.

It uses the latest LED technology for long life, low electricity usage and an even spread of light, unlike older fluorescent lit mirrors. The lights and demister are operated via the touch switch.

Quality is assured through the use of high quality float glass and 100% silvering on the rear that is completely sealed against any moisture penetration.

Size is 600mmx 800mm.

**WARRANTY**  
5 years

\*Conditions apply.

# Fitting Instructions for Arcisan Mirror

Thanks for purchasing an Arcisan mirror. For safety reasons, we kindly ask you to read this installation and user guide carefully before you install and use the product.

**FITTING INSTRUCTIONS** - See also below

## FITTING INSTRUCTIONS

1. Handle with care. When unpacked, never place mirror upright on a hard surface e.g. Tile Floor. Always lay on soft surface.
2. Drill 2 holes on wall surface as per diagram 1 to desired height. 64" from floor to centre of mirror is advised but may be adjusted as required, Use spirit level to ensure holes are level. If drilling through tiles, use a ceramic drill bit.
3. Inset rawl plugs into holes and screws into holes.
4. Attach wire from back of mirror to mains wire in accordance with current IEE regulations. A second person will be needed to hold the mirror in place.
5. Hang the mirror onto the screws via holes in the frame.
6. May be hung portrait or landscape.
7. A distance of 80 mm is necessary between the sensor switch and any other object in any direction
8. Enjoy!

## GENERAL INFORMATION

- This mirror is suitable for Zone 2 or higher and not Zone 0 or 1 (see diagram)
- We advise that you consult a qualified electrician for the installation.
- Switch off electrical supply at mains before fitting.
- Ensure wall surface is of suitable strength and construction.
- Beware of hidden cables or pipes.
- For plasterboard walls, specialist fixings should be purchased from DIY or hardware stores.
- The mirror is heavy so you may need assistance.
- Turn lights on/off using infra red sensor -leave off when not in use.
- Heat pat turns on with light switch and takes 2/3 minutes to heat up.
