## SHOWERS & TAPWARE Collection

---

Inspiration for planning your  
bathroom and kitchen

---

METHVEN

## Committed to the environment

At Methven we're committed to protecting the planet and reducing our environmental impact to help conserve the earth's natural resources.

Water is the earth's most precious commodity. Currently around one fifth of the world lives in a water scarce region. And with water usage growing at twice the population rate, its preservation will only become more vital in years to come.

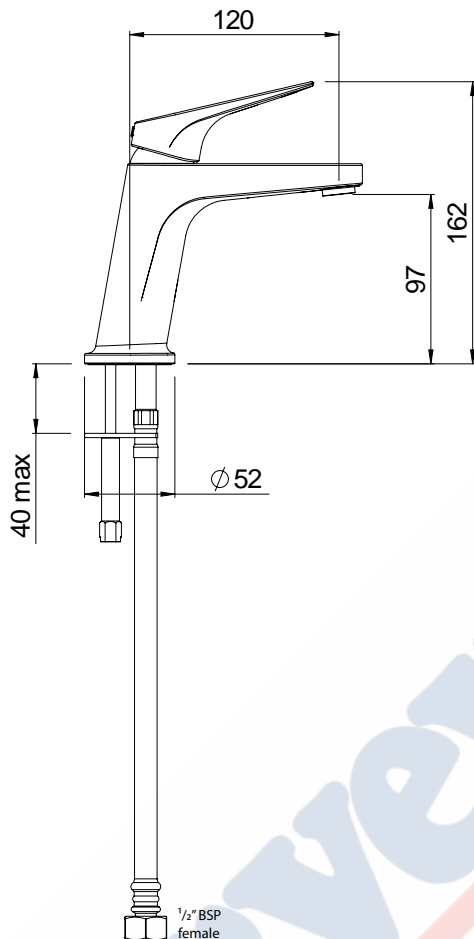

That's why at Methven we make taking care of water a primary focus in every product we develop.

For example, did you know that your shower uses around 30% of your household water consumption? So we've developed innovative technologies - such as Satinjet and Aurajet - that deliver a luxurious shower experience, all whilst actually using less water.

Methven. Conserving energy and water to protect  
the planet for generations to come.

**MAKU BASIN MIXER**

**FINISH: Chrome**

**CONSTRUCTION:** Brass

**CARTRIDGE TYPE:** 25mm

**SUPPLY:** Mains Pressure

**CONNECTIONS:** 1/2" BSP Female

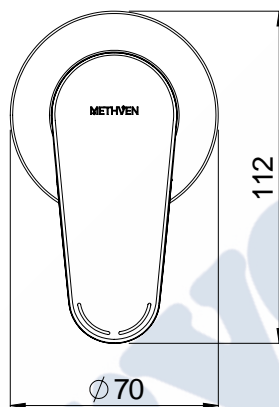

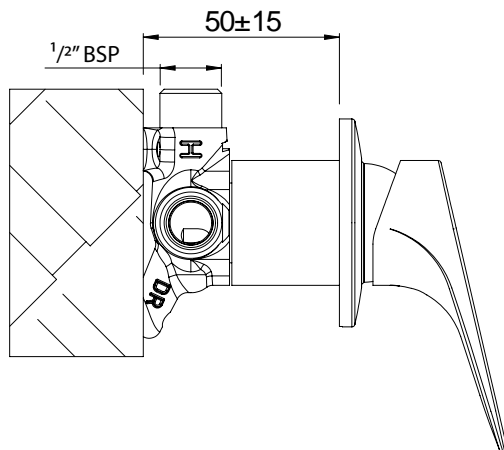

**WORKING PRESSURES:** 150 - 500 kpa

**OPERATING TEMPERATURE:** 5°C to 70°C\*

\*Refer AS/NZS 3500

- 25mm ceramic disc cartridge
- Solid easy-to-grip handle
- Solid brass construction for longevity
- Adjustable Stream Direction Aerator with slim stream flow director
- Integrated base ring eliminates potential build-up of dirt, making cleaning easier
- Stainless steel flexible hoses – 1/2" BSP female
- Suitable for mains pressure installation
- WELS 4 Star, 7.5l/min

01-8567  
**MAKU SHOWER MIXER**

**FINISH: Chrome**

**CONSTRUCTION:** Brass

**CARTRIDGE TYPE:** 25mm

**SUPPLY:** Mains Pressure

**CONNECTIONS:** 1/2" BSP Female

**WORKING PRESSURES:** 150 - 500 kpa

**OPERATING TEMPERATURE:** 5°C to 70°C\*

\*Refer AS/NZS 3500

- Evenflo™ technology helps to ensure consistent water flow delivery to help prevent fluctuations in water temperature even when pressure is unbalanced. Precise temperature transition from cold to hot minimises the risk of scalding and thermal shock
- 25mm ceramic disc cartridge
- Solid easy-to-grip handle
- Metal wall plate construction for longevity
- Two dome covers included to provide greater installation tolerance
- Incorporates brass lugs for ease of mounting
- Body inlets - 1/2" BSP female
- Suitable for mains pressure installation
- WELS rating not required

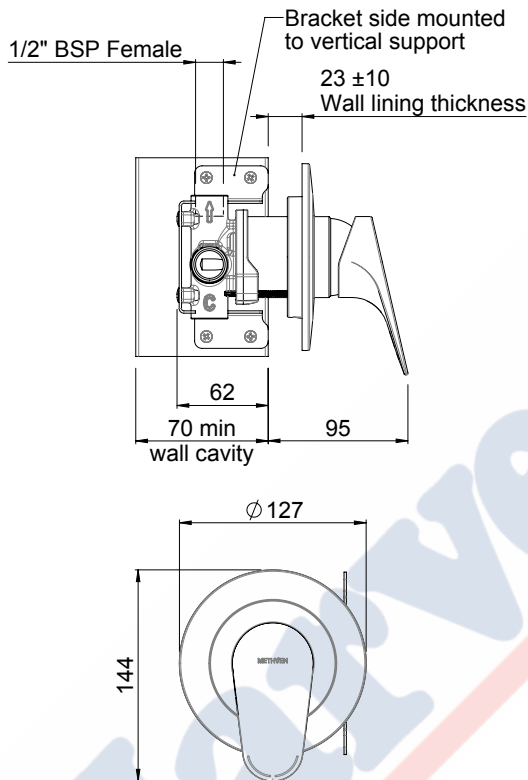

**THE METHVEN GUARANTEE.** For total peace of mind, all domestic tapware products include a 15 Year Parts and Labour Guarantee. For commercial installations, a Five Year Guarantee on Parts and Labour and a 10 Year Guarantee on Cartridge Replacements applies. For full terms and conditions, visit [www.methven.com](http://www.methven.com).

### Safeflow™

#### MAKU SHOWER MIXER

Safeflow is a temperature and flow regulator that is operated by a simple-to-use single lever. It delivers a stable showering temperature, even with erratic hot and cold pressure.

The integrated Thermostatic Cartridge mixes the maximum water temperature to 45°. Precision ceramic discs add incrementally more cold water to the flow as you choose, resulting in a very accurate and stable output temperature. If the cold water cuts off for any reason, the thermal element quickly expands to shut off the hot water, preventing exposure to scalding water straight from the water heater.

**CARTRIDGE TYPE:** Ceramic, Safeflow™

**CLASSIFICATION:** Suitable for mains pressure systems

**INLET CONNECTIONS:** 1/2 " BSP Female

**OUTLET CONNECTIONS:** 1/2 " BSP Female

**WORKING PRESSURE:** 150 - 500kPa

**OPTIMUM WORKING PRESSURE:** 200 - 500kPa

**OPERATING TEMPERATURE:** 5 °C - 45 °C

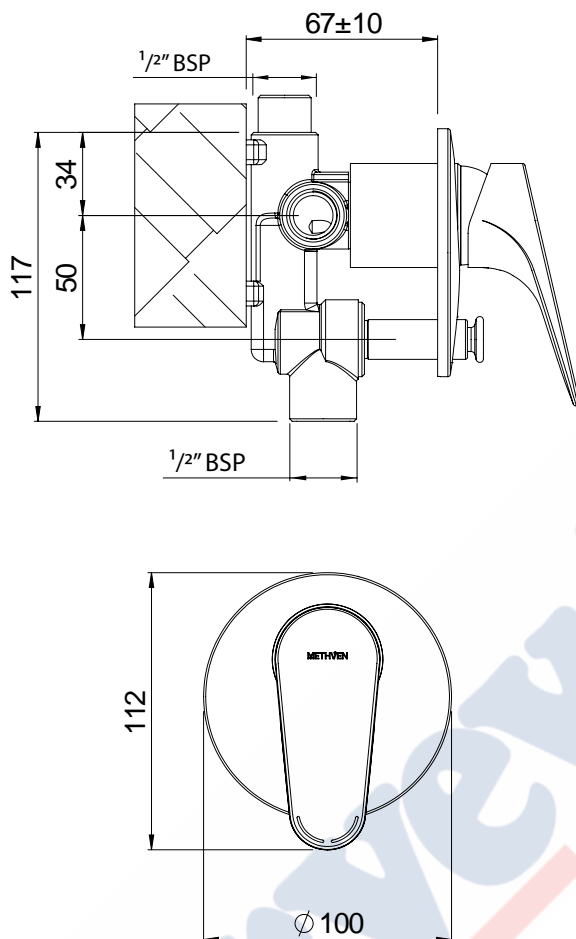

- Methven Safeflow™
- Longer lasting taps
- Ceramic cartridge
- 20mm installation tolerance
- Metal faceplate
