METHVEN

SHOWERS & TAPWARE Collection

Inspiration for planning your
bathroom and kitchen

METHVEN

Committed to the environment

At Methven we're committed to protecting the planet and reducing our environmental impact to help conserve the earth's natural resources.

Water is the earth's most precious commodity. Currently around one fifth of the world lives in a water scarce region. And with water usage growing at twice the population rate, its preservation will only become more vital in years to come.

That's why at Methven we make taking care of water a primary focus in every product we develop.

For example, did you know that your shower uses around 30% of your household water consumption? So we've developed innovative technologies - such as Satinjet and Aurajet - that deliver a luxurious shower experience, all whilst actually using less water.

Methven. Conserving energy and water to protect
the planet for generations to come.

WASSCPWHAU WAIPORI SATINJET TWIN SHOWER SYSTEM

Satinjet®

Twist Free
Hose

FINISH: Chrome/Graphite

FUNCTIONS: Satinjet®
