SHOWERS & TAPWARE Collection

Inspiration for planning your
bathroom and kitchen

Your kitchen, the heart of your home

You spend more active time in the kitchen than any other room in the house, and your kitchen tapware is at the heart of this - so it's important to select the tapware that's right for you.

Think about how you use your kitchen tapware:

Whether you're looking to buy kitchen tapware as part of a renovation, new build or simply because your current mixer is in need of replacement, it's important to think about the everyday tasks you use it for. For example, food preparation, washing dishes, rinsing dishes, making drinks, washing hands or even watering your plants. Considering all the facts will help you choose the right combination of features.

Choosing the right kitchen tap:

1. CONSIDER THE MOUNTING TYPE - DO YOU WANT IT DECK (BENCH) OR WALL MOUNTED:

Deck mounted - Is a more contemporary look and gives you greater flexibility for kitchen sink placement.

Wall mounted - Gives a more classic look and is more cost effective if you're replacing an old wall-mounted kitchen tap.

2. CONSIDER HOW YOU WANT TO CONTROL YOUR KITCHEN TAP:

Mixers - Contemporary look and simple single handed operation.

Also, if you prefer a mixer do you want the handle positioned on the side, front or top? Methven have deck mounted mixers that allow you to position the handle at either the front or side.

Separate handles - The classic look, allowing you to control the cold and hot water individually.

3. CONSIDER YOUR SPOUT HEIGHT - HIGH VS LOW:

High spout - Gives a more contemporary look and makes filling large pots much easier.

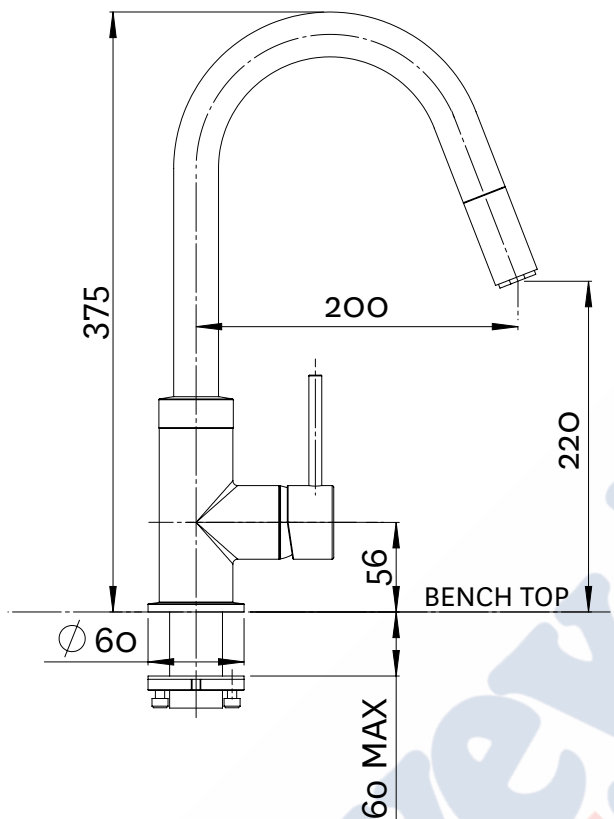

Low spout - Is great when space is at a premium, such as when you have a cabinet or window above the sink.

4. WHAT ABOUT A PULL-OUT SPOUT:

This is a feature where the spout head pulls out towards the sink on a flexible hose, giving increased flexibility and manoeuvrability - very handy for cleaning vegetables, rinsing pots and pans or rinsing down the sink.

01-0318
GOOSENECK PULL OUT SINK
MIXER - BLACK ACCENT

FINISH: Chrome

CONSTRUCTION: Brass Body

CARTRIDGE TYPE: 40mm ceramic
