Easy clean

Old Method

PARISid-bLINE

Open rim - Direct Flush

PARISI'S Innovative Rimless Toilets feature the latest Technology in Flushing, Hygiene and Design.

Powerful Clean

The PARISI innovative rimless toilets are the first in Australia to ensure optimum hygiene with its smooth and continuous design. Its effective flushing technology ensures cleaning is kept to a minimum, whilst water is delivered to the bowl forcefully and systematically.

Easy Clean

Easy clean is a powerful technology applied to ceramic where active silver ions are baked into the ceramic glaze. This technology dramatically decreases the build-up of bacteria, substantially minimising the need for harsh cleaning products. This results in an environmentally sound solution, whilst delivering a superior hygienic surface.

Optimum Hygiene

A more hygienic result is attained as dirt and bacteria are no longer hidden under the toilet rim. The easily accessible rim area also makes cleaning easier and more efficient. Parisi's new rimless design eliminates the traditional rim completely, ensuring no waste can collect in this area.

Sleek Design

Functionality is combined with an appealing design. The compact, smooth sided toilets are complete with the impressive new PARISI slim lift-off soft close seat for an elegant finish.

Water Efficiency

PARISI's effective flushing technology provides outstanding splash-free flushing results. The dynamic water flow ensures that the new superior flushing maintains ideal water usage, whilst being environmentally conscious. The wall faced toilet suites have been awarded a 4 star rating with an average water consumption of 3.3 Litres per flush.

Elisse MKII Wall Faced Suite

Product Code: PN600

The innovative design of the Parisi Elisse MKII wall faced suite with RIMLESS technology projects water rather than the traditional flushing mechanism where water pours down the rim. Through the powerful delivery of water and open rim design, maximum cleaning of the inner bowl is achieved.

Specifications

Colour / Finish	— White / Gloss
Material	— Vitreous China - Easy Clean
P Trap	— 185mm height FFL
S Trap	— 50-160mm using PN0030 supplied
Var. Set Out	— Optional extra S trap 180-240mm (using collar adaptor PN0045, to be ordered separately)
Water Inlet	— Back Inlet 745mm FFL
WELS	— 4 star rating 4.5/3L 3.4L avg flush
W x D x H	— 365 x 645 x 855mm
