

FILTRA PRO - FR5181 Deep Fryer

It has never been so easy to deep-fry like a pro!

Patented oil filtration system for easy clean up !

KEY Features

- Innovative oil filtration system
- Perfect crispy fries & easy to clean
- Digital timer, an adjustable thermostat and oil ready light indicator

Product Benefits

Easy to clean

Patented filtering mesh

The filtering mesh is placed inside the bowl, even when frying. It is also very easy to clean as it is dishwasher safe.

Removable Basket

The bowl is removable. The lid, basket, mesh and bowl are all dishwasher-safe for an easy cleaning.

Waffled stainless steel housing

This fryer has a stylish design thanks to its waffled stainless steel housing: sturdy and elegant.

Easy monitoring

Digital timer

Set your time and the timer will ring when your fries are ready!

Monitor your cooking

This fryer has a cooking lid equipped with a permanent metallic filter and a viewing window to monitor your cooking.

Uniqueness

Worldwide innovation: patented oil filtration

Filtra Pro features a unique oil filtration system: a patented filtering mesh is used to filter your oil after every use. Thus the oil stays clean longer and bad smells are reduced.
