

ActiveOxygen

Removes up to 99.99%[#] of germs and bacteria – even at low temperatures.

EUROPE'S
BRAND No.1*

*For major domestic appliances.
Source: Euromonitor, volume sales, 2016

3 easy steps for hygienically clean clothes:

1 Select your preferred wash program and activate the ActiveOxygen™ option.

2 At the start of the wash cycle, a fine mist of active oxygen, which is produced by the system itself, is emitted into the drum. No other additives are needed.

3 Before the final spin cycle, your laundry is treated with active oxygen again in order to remove germs and bacteria.

Results

These two processes add 30 minutes to the selected wash program and remove up to 99.99%[#] of germs and bacteria.

[#]Up to 99,99% reduction of E. coli, C. albicans, S. enterica, A. brasiliensis, S. aureus, bacteriophage MS2 in the washing program "Mix cold" with liquid laundry detergent at recommended dosage and a load size of 4 kg – investigation MB 7623/15 dated July 29th, 2015 conducted by wfk-Institut für Angewandte Forschung GmbH commissioned by BSH Hausgeräte GmbH.
